Irrigation Controllers

Hunter ICC Controller 8 Station Time Clock

Features & Benefits:

- **Versatile modular design**
Provides easy addition of more stations, simplified inventory management, and easy servicing
- **4 fully-independent programs**
Each with separate day cycles and 8 start times, offering total flexibility for complex landscapes; two programs can run concurrently
- **Independent day schedule options for each program**
Maximize scheduling choices (select days of the week, true odd/even days, skip days up to 31 days)
- **Non-volatile 100-year memory**
Program data is retained during power outages, without need for battery
- **Programmable pump circuit by station**
Use pump only when needed; accommodate dual water sources
- **Cycle and Soak capability by station**
Allows run times to be divided into repeat cycles to minimize run-off
- **Remote control ready**
Supplied with connection for SRR and ICR remote controls

ITEM #	DESCRIPTION	PRICE
32-8608	8 Station Time Clock	\$468.47
32-0004	4 Zone Plug-in Add On Module	93.64
32-0008	8 Zone Plug-in Add On Module	173.44

Junior™ MAX

The Junior MAX controller offers affordable simplicity. Featuring a host of attractive features, it is the ideal controller for greenhouse and nursery applications.

The Junior MAX features simple, self-guided programming that prompts users through numerous scheduling options. Three independent programs allow full flexibility in scheduling for fogging, misting and propagation through an easy-to-program looping feature.

This innovative controller provides a cost effective way to meet the requirements of greenhouse and nursery producers. The Junior MAX sets a new standard in economy and flexibility.

Features:

- Three independent programs with start-time stacking
- Program C can be set to a looping function
 - Unlimited starts in looping mode
 - Looping can be set in seconds and minutes
 - Ideal for fogging, misting, or propagation
- "Self-guided" programming prompts user through irrigation schedules

Operating Specifications:

- Station run times:
 - 1 minute to 4 hours in 1-minute increments
 - Looping program can be set in seconds
- Start times:
 - Three starts for programs A and B, one start for program C in regular mode
 - Unlimited starts in looping mode

Electrical Specifications:

- Maximum output per station:
 - 24 V ac, .25 amp
- Capacity: One station valve
 - plus a master valve or two station valves on at a time

ITEM #	DESCRIPTION	PRICE
32-8404	4 Station Controller	\$128.95
32-8406	6 Station Controller	145.60
32-8408	8 Station Controller	165.35

EZ Pro Irrigation Controller

Nelson controllers combine technologically superior electronics with an easy-to-use panel for truly simple programming. The patented EZ Pro family of controllers allows users the flexibility and convenience that make them the best choice for a wide range of larger irrigation projects.

Features

- Nelson exclusive Select & Adjust™ programming
- Lithium battery back-up stores programs without AC power or AA batteries
- Stacking start times
- Three independent programs
- Three start times per program
- True calendar clock (Leap year compatible)
- Scheduling options:
 - Odd/Even
 - Interval, 1-30 days
 - 7-day Calendar
 - Event day
- Zone run times from one minute to one hour 59 minutes
- NEW! Programmable delay between zones, one second to 30 minutes

Specifications

Cabinet

Weather resistant plastic

Number of Zones

4, 6, 9, 12

Case Dimensions

8"h x 10"w x 4"d

Input

120V AC, 60 Hz

Output

24V AC, .83 Amp

Batteries

2 AA alkaline batteries
(not included)

Internal Transformer Included

ITEM #	DESCRIPTION	PRICE
32-8304	EZ Pro 4 Zone Controller	\$159.87
32-8306	EZ Pro 6 Zone Controller	173.97
32-8309	EZ Pro 9 Zone Controller	223.40
32-8312	EZ Pro 12 Zone Controller	273.55

Time Clocks

Short Interval Timers

For systems that require on and off operation of short duration.

Day-Night Timer

Used in any system to select time to start other program timers.

ITEM #	VEND. #	DESCRIPTION	CYCLE	INCREMENTS	PRICE
32-4025	2E355	Short Interval Timer	10 min.	5 sec.	\$209.13
32-4040	2E258	Day-Night Timer	24 hours	60 min.	141.34

MC-E Series

The MC-E Series of irrigation controllers have advanced features designed for valve and pump control applications in agriculture. The MC-E Series controllers have a looping feature to reliably control misting, cooling and fogging in greenhouse and nursery applications. New flow monitoring and diagnostic features detect unscheduled flow events and alarms users.

4, 6, 8, 12, 18, 24, 30, 36, 42, 48 station outdoor models

Features:

- Looping on all 8 programs
- Up to 11 starts per day
- Loops have adjustable start time, stop time and delays between loops
- The cabinet is durable, lockable and weather resistant.
- Watering times in hours, minutes, or seconds.
- Station run times
 - 0-59 seconds in 1-second increments
 - 1 minute to 24 hours in 1-minute increments
