Federal Express Freight 1 and 2 day Ground:

- It is a great lower cost option than Federal Express standard.
- This service is not temperature controlled.
- This option is a good choice for your customers that require truck delivery, when we don't have a truck going into that area.
- Orders will be boxed, and will be loaded on a pallet, and shrink wrapped.
- A pallet will hold up to 30 cases, and we will not use this option for any order less than 20 cases, as that is the break even point
- As always if there is a truck shipping, that will be our first option, but if not, this is a second, and good, reliable alternative.
- Truck rates will apply

Speedling reserves the right to apply freight surcharges.

ABZ Seeds is a company concentrating on the strawberry breeding of F1 hybrid varieties, propagated by seed. Strawberry varieties are selected by flowers that stand out in color, shape and size.

BELTRAN

This vigorous plant produces throughout the summer, plenty of wonderfully aromatic strawberries.

"Beltran is a good addition to your assortment of hanging baskets plants.

The plants of 'Beltran' are vigorous and somewhat compact, with beautiful green foliage and few runners. These characteristics make 'Beltran' is ideally suited for cultivation in hanging baskets.

The first flowers of 'Beltran' appear several days earlier than that of strawberry F1 Hybrid 'Roman'. The large, semi-double white flowers that protrude well above the plant, give 'Beltran' the right look for sales to consumers.

ROMAN

This beautiful and vigorous plant produces abundant apple blossom colored flowers and aromatic fruits throughout the summer.

The vigorous plants of 'Roman' are produced for the long flowering shoots suitable for production in hanging baskets. The big, semi-double flowers with an attractive apple blossom flower color make 'Roman' a true blockbuster!

The slightly oblong fruits are medium sized with a warm deep red color. Last but not least, the special aromatic taste of the fruits of 'Roman' makes the difference!

TARPON

This vigorous plant produces throughout the summer, plenty of large, intensely colored pink flowers.

'Tarpan' is the sensation in your assortment of ornamental strawberries.

The plants of 'Tarpan' are moderately vigorous with light green leaves. 'Tarpan' produces many suckers early in the propagation. Yet 'Tarpan' is a very early flowering variety. The large semi-double flowers have a lovely, intense pink color.

'Tarpan' blooms abundantly throughout the summer and autumn.

These product features make 'Tarpan' perfect for hanging baskets and tubs in the ornamental garden.

The bright red fruit is medium. The fruit is typical elongated shape. The taste of 'Tarpan' fruit is slightly aromatic.
