MUM GENETICS

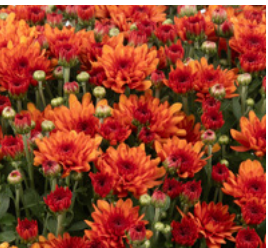

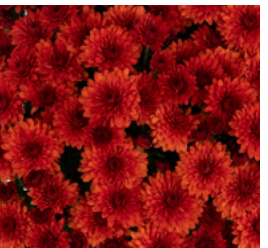

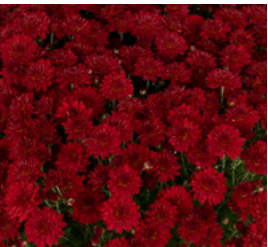

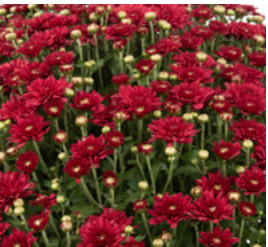

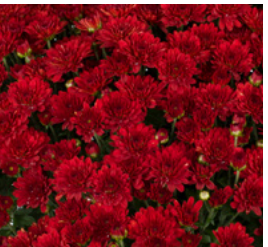

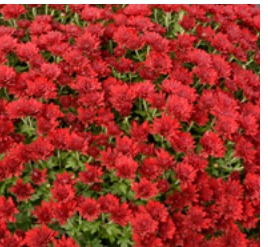

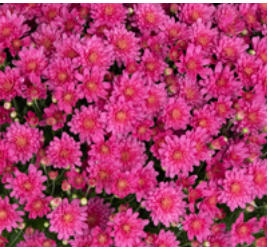

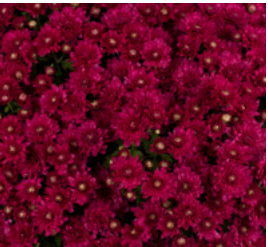

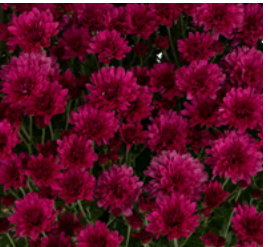

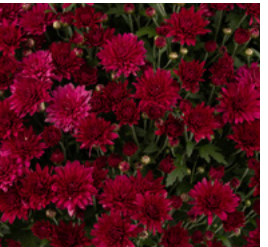

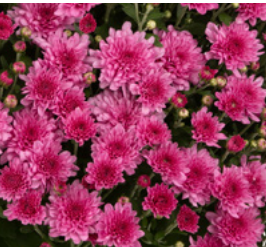

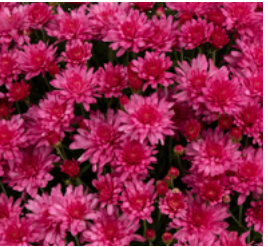

Think about adding something to your assortment.

Griffin brings you the industry’s top-performing mum genetics from the world’s leading breeders—Syngenta Flowers, Dümmen Orange, and Gediflora. This season, we’re spotlighting the best garden mums from each breeder, organized by color and timing, so you can deliver vibrant fall color from early September through frost. Stock your benches with the very best and give your customers every reason to keep coming back for more

Top Garden Mum Picks from Syngenta Flowers for Every Season

Syngenta Flowers offers a large and extensive list of top-selling families and varieties offering a solution for all of your color and timing needs.

	Early	Midseason	Late	Very Late

Adjuvant	
67-9610	Evofactor 2.5gal Nutrient Adjuvant

Need help calculating use rates or stock tank recipes? Ask GGSPRO for help!

What is Evofactor?
Evofactor increases nutrient availability and uptake when added to fertilizer stock solutions. Reduce crop time and build stronger plants while using less fertilizer. Ask your Griffin salesperson for more information.

GROUND CLOTH

Keep the weeds at bay.

Save 10% and pay in September! Program pricing and terms available on the two items listed below when your total ground cloth purchase exceeds \$1500. Use Program Code MUM26 for pricing and Terms Code 4S for 2% 10 Net 9/11/2026. Ask about additional savings for bulk and drop ship quantities.
