# Window Candles

Window Candles are a staple in certain regions of the country, specifically the Mid-Atlantic and Northeast. As people were building homes in the 1980s and 1990s, a special build package existed that included outlets under each window specifically for window candles.

To this day, window candles remain just as popular.

Homeowners don't just buy one candle - they buy one candle for *each window*. They adorn their windows well before they start traditional Christmas decorating and leave them up well after the Christmas season.

# Celestial Lights Perfected The Window Candle

Window candles were traditionally plug-in

## The Challenges:

- People were always running extension cords which created problems in itself, and with corded items, kids and pets could easily knock them off the windowsill
- Incandescent bulbs would also become very hot and could easily damage curtains

## Our Solutions:

- We developed battery operated window candles with LEDs initially to solve for unsightly and unmanageable cords; LED bulbs are also cool to the touch, eliminating damage to curtains
- We noticed the LEDs were not bright enough from the outside and solved by bending the LEDs making them appear more like traditional incandescent candles from the outside (patent number: US 10,995,919,B1)

Many older homes have very narrow windowsills and muntin bars

## The Challenges:

- The base of traditional window candles was wider than the windowsill and fell off easily
- Muntin bars often obstructed the bulbs interfering with the light and appearance on the outside

## Our Solutions:

- We designed a weighted metal oval-shaped base designed to fit on narrow windowsills
- We added a feature making the candle stick height adjustable, allowing the bulb to clear the muntin bar

No matter the size of the home, lighting needs and preferences differ

## The Challenges:

- Some homes want lights on 24/7, some want them on at dusk, and some only at night after sunset
- Many customers think they want “dusk to dawn” features however these are highly unreliable as different windows receive different angles of light

## Our Solution:

- We included a remote control with different timer settings: steady-on or 6/8/12-hours on - allowing customers the option to set the candles once (versus every day) and giving them the option to program room-to-room

Bulb preferences are not equal

## The Challenges:

- Not everyone wants a steady-on bulb, and not every customer wants a gentle flicker bulb; over time customers may change their minds and preferences

## Our Solution:

- We included a gentle flicker (“Tw”) and traditional incandescent steady-on (“St”) options on our remote control - one bulb, two options

## FEATURES

# Patented Window Hugger® Plug-In Candles

### Patented Window Hugger Design

The patented weighted base features a rounded front and flat back design; these will fit even the most narrow windowsills

patent numbers:  
US D914,926 S  
US D895,173 S

### LED Bulb with Incandescent Look

LED bulb that has the appearance of a traditional incandescent but without all the problems of an incandescent (heat, power usage, etc.)

### Built-In Timer

Features a built-in 12hr-on, 12hr-off timer

# Artificial Christmas Greens

## *Woodland Collection*

The Woodland Collection is our most classic collection. Each features a combination of douglas fir, frasier fir, and pine tips, accented with bright red lifelike berry clusters and real pinecones.

# Pre-Lit, Battery Operated, Dual-Color Indoor/Outdoor Garland, Wreath and Teardrop

FEATURES

# Pre-Lit, Battery Operated, Dual-Color Indoor/Outdoor Garland, Wreath, and Teardrop

## Dual-Color Function

Patented method of making holiday greens dual-color gives truer colors and fewer points of failure vs traditional RGB sets; dual-color also permits retailers to carry a single SKU vs two

## High-Quality Materials for Long-Term use

Constructed of high-quality material that is waterproof and UV-treated to avoid water damage and resist sun fade and discoloration; wire-coated to avoid rust

Indoor/outdoor styrofoam berries that will not pop in colder temps

## Thoughtfully Constructed Battery Box with Dial Controller & Timer

Stainless steel to avoid rust and rubber gasket to prevent moisture from seeping in, large enough so the product lasts 30+ days

Dial controller with steady-on or 6-hour on/18-hour off timer settings provides options and flexibility and convenience for customers based on preference

# Pre-Lit, Battery-Operated, Dual-Color Indoor/Outdoor Urn Filler

FEATURES

# Pre-Lit, Battery-Operated, Indoor/Outdoor Urn Filler

## Ground Stake For Seamless Installation

Included removable metal ground stake allows for easy installation directly into the ground or a pot full of soil (no need to empty the pot completely)

## Patented Dual-Color Function

Patented method of making holiday greens dual-color gives truer colors and fewer points of failure vs traditional RGB sets; dual-color also permits retailers to carry a single SKU vs two

## High-Quality Materials for Long-Term use

Constructed of high-quality material that is waterproof and UV-treated to avoid water damage and resist sun fade and discoloration

Indoor/outdoor styrofoam berries that will not pop in colder temps

## Thoughtfully Constructed Battery Box & Dial Controller

Stainless steel to avoid rust and rubber gasket to prevent moisture from seeping in, large enough so the product lasts 30+ days

Dial controller with steady-on or 6-hour on/18-hour off timer settings provides options and flexibility and convenience for customers based on preference

A festive garland of pine branches, red berries, and pinecones hangs against a grey wooden wall. The garland is lush and full, featuring a combination of douglas fir, frasier fir, cedar, and pine tips, accented with bright red lifelike berry clusters and real pinecones. The background shows a grey wooden wall and some greenery and flowers above the wall.

## *Plymouth Collection*

The Plymouth collection is our most deluxe collection. It appears similar to the Woodland collection, however is much more full and lush and features the tips that can be found on both the Woodland and Aspen collections: a combination of douglas fir, frasier fir, cedar, and pine tips; accented with bright red lifelike berry clusters and real pinecones.

FEATURES

# Pre-Lit Plug-In Garlands

## Incandescent

A detailed diagram of an incandescent pre-lit plug-in garland. The garland is shaped into a large 'U' and is made of dark green, dense evergreen branches. It is decorated with clusters of red berries and small brown pinecones. Numerous warm white incandescent bulbs are spaced evenly along the length of the garland. A green arrow points from the text 'Stay-lit warm white incandescent T5 bulbs' to one of the bulbs. Another green arrow points from the text 'Constructed of high-quality material that is waterproof and UV-treated to avoid water damage and resist sun fade and discoloration' to the greenery. A third green arrow points from the text 'High-quality materials for long-term use' to the bottom of the 'U' shape. A fourth green arrow points from the text 'Indoor/outdoor styrofoam berries that will not pop in colder temps' to a cluster of red berries. A fifth green arrow points from the text 'Wire coated to avoid rust from forming and staining' to the wire of the garland. A sixth green arrow points from the text '6-inch green lead cord; UL-listed; plug-in up to 3 garlands end-to-end' to the green cord at the top of the garland.

## *Norfolk Pine Collection*

The Norfolk Pine collection is our newest collection and offers a softer, more delicate option with a combination of soft-touch Norfolk pine and cedar tips.

The Norfolk Pine collection is adorned with warm white fairy LEDs, real pinecones, and lifelike blueberry clusters.

# Pre-Lit, Battery Operated, Indoor/Outdoor Garland & Wreath

## FEATURES

# Pre-Lit, Battery Operated, Indoor/Outdoor Garland & Wreath

### High-Quality Materials for Long-Term use

Constructed of high-quality material that is waterproof and UV-treated to avoid water damage and resist sun fade and discoloration; wire-coated to avoid rust

Indoor/outdoor styrofoam berries that will not pop in colder temps

### Thoughtfully Constructed Battery Box with Dial Controller & Timer

Stainless steel to avoid rust and rubber gasket to prevent moisture from seeping in, large enough so the product lasts 30+ days

Dial controller with steady-on or 6-hour on/18-hour off timer settings provides options and flexibility and convenience for customers based on preference

A photograph of a pre-lit, plug-in stake Christmas tree standing in a large, dark, ornate urn on a porch. The tree is decorated with warm white lights and small ornaments. In the background, a dark door is visible, adorned with a festive wreath of greenery, pinecones, and lights. The porch has a wooden deck and a dark doormat.

## *Pre-Lit, Plug-In Stake Trees*

The stake tree appeals to those who desire a classic look and the versatility to decorate for more than just Christmas — an item that can carry their porches through the winter months.

With the included sturdy, ground stake, they can be inserted into a pot full of dead soil. Alternatively, if homeowners prefer the look of a free-standing tree, they can use the included stand.

# Pre-Lit, Plug-In, Indoor/Outdoor Stake Trees

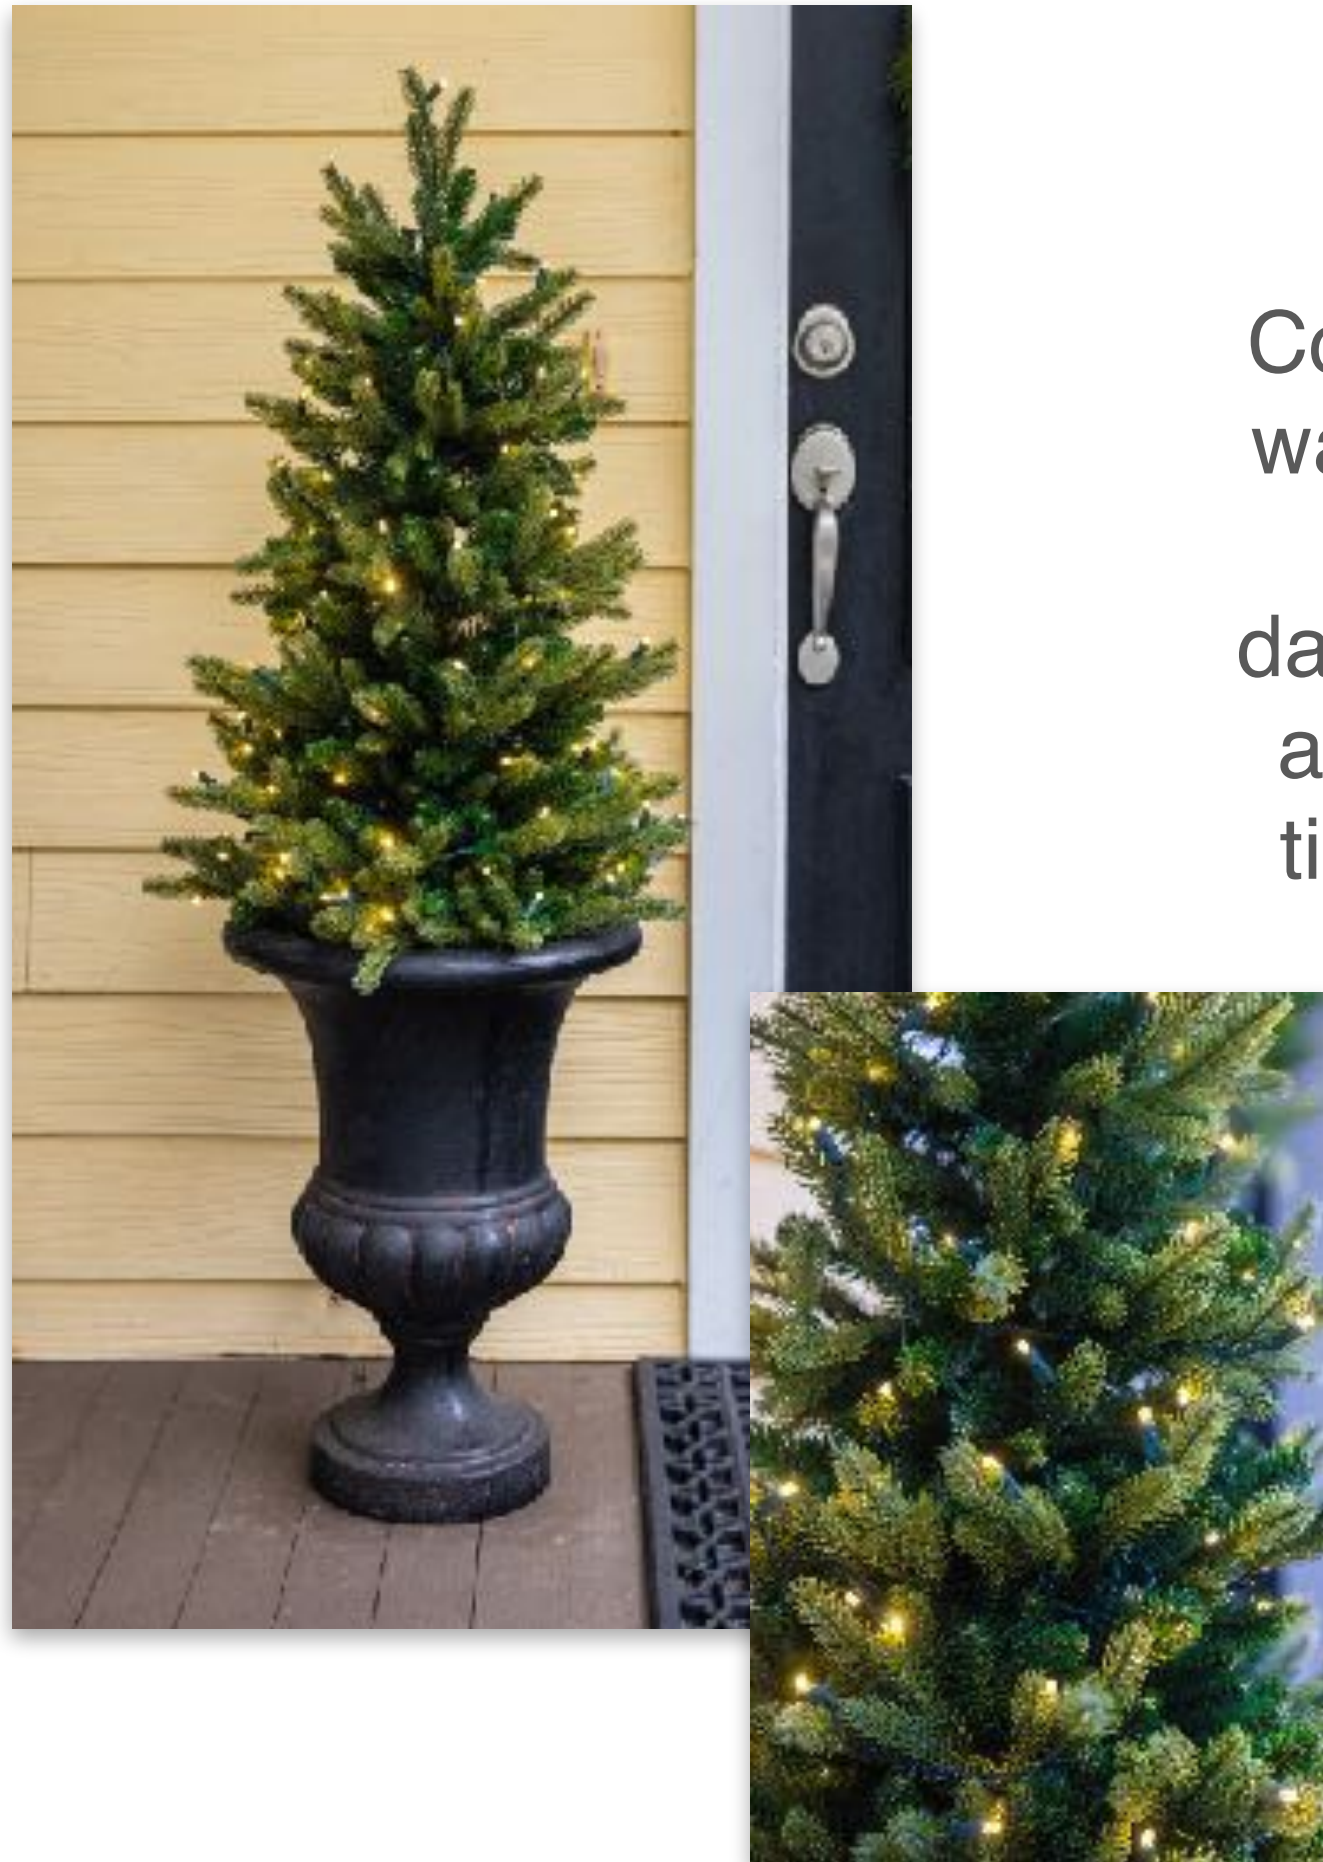

## FEATURES

# Pre-Lit, Plug-In, Indoor/Outdoor Stake Tree with Warm White Lights

## High Quality Material for Indoor/Outdoor Use

Constructed of high-quality, waterproof, and UV-treated material to avoid water damage and resist sun fade and discoloration; molded tips and 5mm warm white LEDs

## Ground Stake and Stand, and Foot Pedal Controller Included

Included: removable ground stake allows for easy installation directly into the ground or a pot full of soil (no need to empty the pot completely); stand for free-standing option; foot pedal controller in case remote is lost

# Plug-In Garlands: Northern Douglas and Frasier Fir

Northern Douglas

Frasier Fir

FEATURES

# Plug-In Garlands: Incandescent & LED

## Incandescent

Stay-lit warm white incandescent T5 bulbs

High-quality materials for long-term use

Constructed of high-quality material that is weatherproof and UV-treated to resist sun fade and discoloration

72" lead cord

The incandescent garland is shown in a wavy pattern. It features a dense arrangement of small, warm white incandescent bulbs. The green foliage material is thick and textured. A 72-inch lead cord is attached to the bottom of the garland.

## LED

High-voltage stay-lit 5mm wide angle warm white bulbs

High-quality materials for long-term use

Constructed of high-quality material that is weatherproof and UV-treated to resist sun fade and discoloration

72" lead cord

The LED garland is shown in a wavy pattern, similar to the incandescent version. It features a dense arrangement of small, warm white LED bulbs. The green foliage material is thick and textured. A 72-inch lead cord is attached to the bottom of the garland. A circular inset shows a close-up of the high-voltage stay-lit 5mm wide angle warm white bulb.

# Home Accents

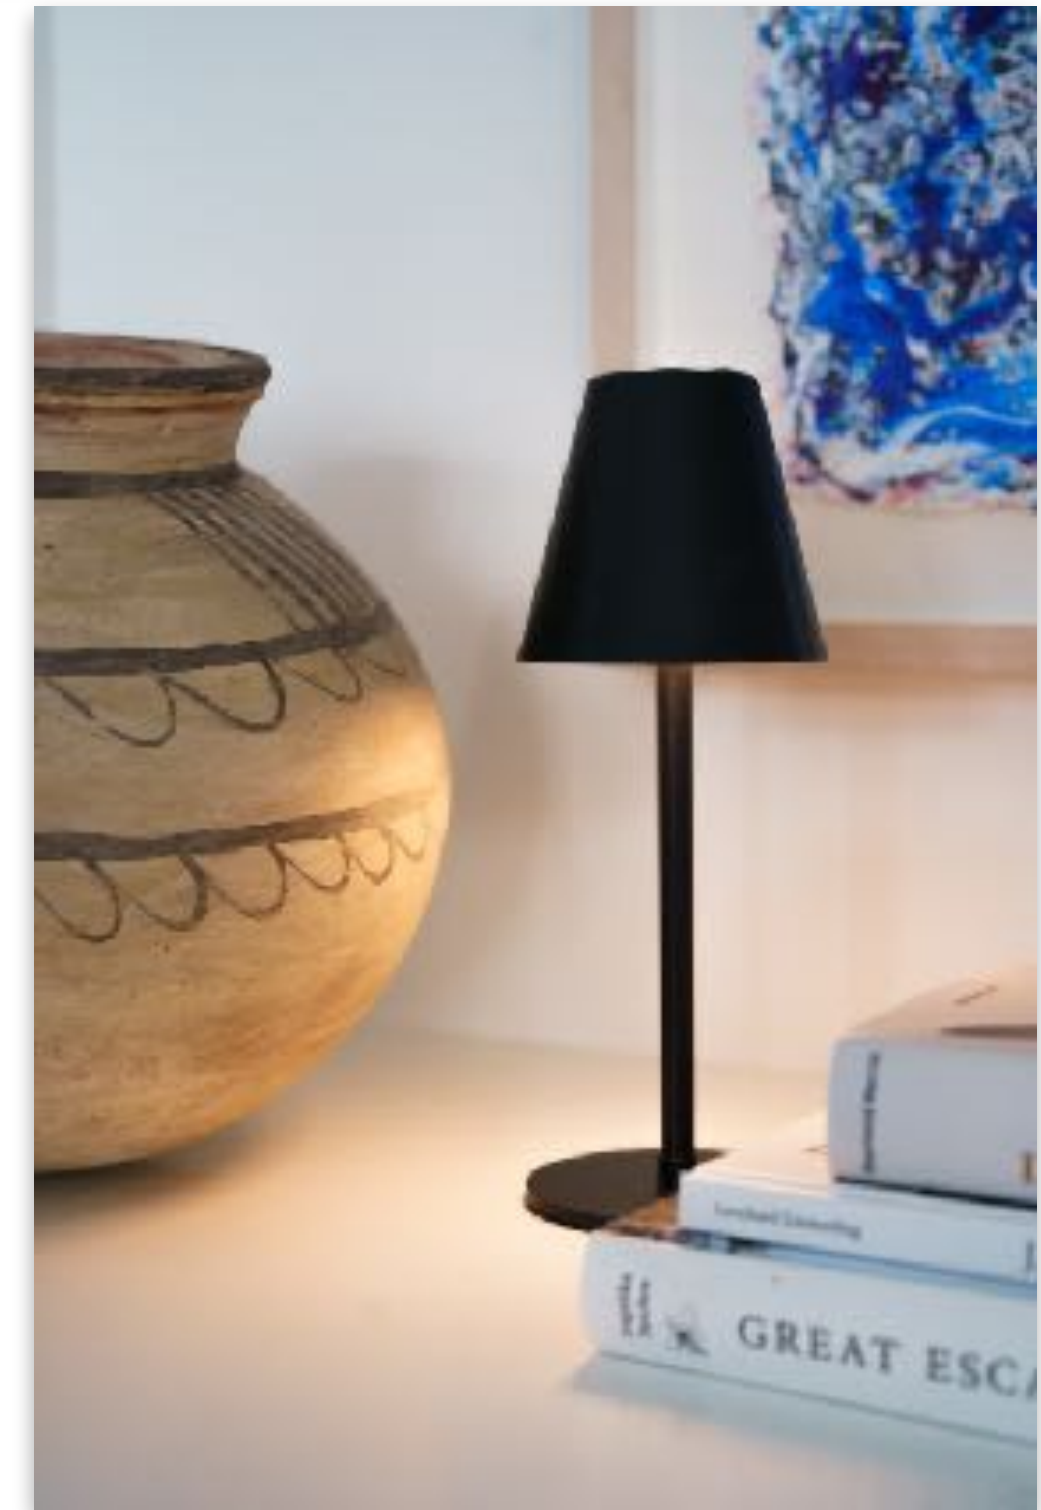

## *Cafe Lamps*

Cafe lamps can be found everywhere at varying price points, however almost none of them have truly unique benefits and features.

The Celestial Lights' cafe lamps go beyond looking good, they provide real value with real benefits, making them both multi-functional and easier to use.

# Cafe Lamps

FEATURES

# Newport Cafe Lamp: USB Rechargeable

## Height Adjustable

Includes two stems making the lamp height adjustable to suit different settings (either 10.5” H or 13.5” H)

## Waterproof & Patented Bug Deterrent Setting

In addition to three warm white settings (low, medium, high), a fourth light setting, the amber light, does not attract bugs when used outdoors and offers a candlelight-like ambiance

## Bottle Stopper Attachment

Included wine bottle stopper attachment allows you to turn any bottle into a lamp

## Magnetic Hook for Hanging Shade

For area lighting, turn the shade portion into a hanging lamp using the included magnetic hook

## Handmade Seagrass Lampshade

Handmade Seagrass lampshades available to easily change the look of the lamp based on need, setting, preferred style

Patent number: US 11,985,967 B1
