About Griffin

Griffin is a partner to horticulture professionals. Family owned and operated since 1947, we apply our knowledge, experience and resources to enhance customer success from production to retail.

End-to-end solutions are our specialty. We represent the industry's leading breeders and producers, spanning seed and vegetative, bedding and potted crops, ornamentals and edibles. Our grower supplies offer includes reliable inputs and equipment to help your crops thrive through all production stages. Finally, our quality retail products drive add-on sales for you, while enhancing consumer success and enjoyment.

To learn more about our company, we invite you to visit us online at www.griffins.com, follow us on LinkedIn, Instagram and Facebook.

Griffin is Committed to Exceptional Customer Service

Our goal is simple: to meet your needs and exceed your expectations. From the time you place your order until it's delivered to your location, our team works to treat you with the utmost care every step of the way.

We strive to deliver every order on time and in full.

Your opinion matters to us! Customer feedback is key to helping our team deliver on our service pledge. Please don't hesitate to contact me directly – by phone or e-mail – with any questions or input that may help us serve you better.

Dan Lowery | Corporate Customer Service Manager

PRODUCTION SUPPLIES

Griffin's roots are in production supplies, and they remain the backbone of our company today. We're proud to offer reliable inputs and equipment to help your crops thrive through all growing stages. Look to us for containers, growing media, chemistry and more from the manufacturers you know and trust. With the increasing demand for more economical and environmentally friendly methods of growing crops, we now specialize in Controlled Environment Agriculture from hydroponics to hemp. Our 15 branch locations service customers nationwide with convenience and efficiency. Shop all of our grower products and place your order with your Griffin sales representative or on www.griffins.com.

RETAIL SOLUTIONS

Griffin is the independent retailer's best source for lawn & garden products. We make it easy for IGCs to do business, with complete vendor offerings, low order minimums and efficient shipping solutions. Raise your retail game with help from our experts! Count on us for seasonal promotion ideas, merchandising best practices and space-planning tips to maximize your display areas and drive sales. Shop all of our retail products and place your order with your Griffin sales representative or on www.griffins.com.

GREEN GOODS

Griffin is a full-service broker of live goods to professional growers. Our assortment includes seed and vegetative material, bedding and potted crops, ornamentals and edibles from the industry's most respected breeders and producers. We're uniquely committed to the seed business, stocking more than 3,300 variety/product-form combinations in our state-of-the-art seed operations facility. Count on us for annuals, perennials, grasses, herbs and vegetables. We're serious about seed quality: Inventory monitoring and regular performance testing ensure every variety meets its full potential, from the greenhouse to the garden center. Browse our complete portfolio and book your inputs through your Griffin sales representative or on www.griffins.com.

TECHNICAL SUPPORT

GGSPRO is our in-house technical services team. With more than a century of combined experience, GGSPRO delivers prompt, practical and accurate support to Griffin customers nationwide. The team's areas of expertise include: Crop culture, sanitation protocols, plant physiology and pathology, chemical controls, biological control agents (BCAs) and plant nutrition. GGSPRO endorses a holistic approach to plant protection, utilizing a mix of cultural practices alongside chemical and biological controls to manage pests and diseases. Visit www.griffins.com/ggspro or contact GGSPRO with questions as you have them at **800.888.0054**.

CONSTRUCTION SERVICES

Our construction team assists with all aspects of greenhouse planning, construction and maintenance. Whether it's a new operation or expansion, upgrades or replacements, we can help with options to meet your needs and fit your budget. We offer a full range of equipment to help you grow efficiently and profitably. Look to us for greenhouse structures, films and coverings, lighting, climate control, irrigation, carts and more. Visit us at www.griffins.com/construction to learn more about our product portfolio and see our project showcase.

YOUNG PLANTS

Griffin delivers premium quality plugs, liners and pre-finished plants from reputable producers nationwide. Our young-plant network serves all major regions of the country with reliable fill rates. To assure freshness, truck delivery is available to most areas from many of our partners.

Our assortment of market-leading varieties is available in the most popular product forms to meet your needs and preferences. Of course, our young-plant products are backed by the same unbeatable service and support you've come to expect from Griffin.

PERENNIALS

Quality inputs yield the best finished product. We partner with accomplished breeders and producers worldwide to bring you the best in perennial seed, cuttings and young plants.

We've built our perennial assortment with your success in mind. Our diverse portfolio features cutting-edge genetics to simplify scheduling and production for you, and provides enduring performance and value to modern consumers.

We're a proud sponsor of the Perennial Plant Association and other organizations that support perennial growers, breeders and producers.

A woman with dark curly hair, wearing a blue denim shirt and green plaid overalls, is smiling and looking down at a tablet computer she is holding with both hands. She is standing in a greenhouse filled with various colorful flowers, including pink and red roses. The background shows more plants and the structure of the greenhouse.

SOURCING HAS NEVER BEEN THIS SIMPLE

**One login connects you to the industry's
broadest selection of products for growers
and independent retailers:**

- Green goods including seed, cuttings and young plants
- Production supplies including containers, growing media and plant protection products
- Greenhouse structures and equipment
- Retail supplies including lawn & garden products, accessories and gift items

Bacopa

(*Sutera cordata*)

New

GALACTIC MIST WHITE

New Bacopa Galactic Mist delivers large, vegetative-quality blooms—nearly three times the size of Snowtopia®—delivers standout impact in a seed-grown variety. Plants form a naturally mounded, well-branched habit without pinching, with a dense, controlled spread similar to compact vegetative types. Flowering 5 to 7 days later than Snowtopia®, it allows for better timing and full plant development before bloom, reducing premature flowering and maintenance.

Garden height: 6-8"

Garden spread: 10-12"

Days to first flower: 63-112

Product form(s): PLT

Galactic Mist White

Begonia Hybrids

(*Begonia x hybrida*)

LIMITLESS™

Limitless begonia is an exciting addition to the tuberous begonia class. Mounding, spreading plants support fully double, extra large flowers that sit on top of the foliage for superior color presentation at retail. Excellent branching means that plants completely fill every container size. Blooming up to a week earlier than the competition, Limitless reduces production time. Use in containers, baskets, garden beds, patio pots and combos.

DRAGON'S BREATH

Incredibly rich red color! Dragon's Breath is an extra-large variety, ideal for gallon production and stunning in fall landscapes. A fabulous performer through hot and humid conditions. Striking red foliage is appealing at retail even without flowers. Produced in long days only, plants will develop plumes in early fall. Give short days in production to add bright red plumes for spring sales.

Garden height: 24"

Garden spread: 16"

Days to first flower: 70-90 (short days), 85-110 (long days)

COLOSSUS™ SERIES

Colossus offers a tight, dense plant habit, with shorter internodes and small leaves. This contributes to less stretch, so Colossus is easier to manage in production and shows longer shelf life. This popular series features upward-facing blooms up to four inches across on short flower stems, creating a striking color show in packs, pots and landscapes. Colossus stays more compact during warm production conditions, making it the perfect choice for late spring, summer and fall production.

DELTA™ PRO

Produced for Precision, Delta Pro brings the highest levels of programmability and uniformity to the large flowered pansy class. Planning for spring or fall is made easy with Delta Pro's extremely uniform and early flowering. 80% of Delta Pro varieties come into bloom within a 5-day window. And uniformity in plant habits and vigor mean that all varieties in the series can be grown with the same protocols making production a breeze. Compact and heavily branched plants fill packs and pots quickly. Large upright-facing flowers on short stems provide a long-lasting show of color at retail.

Once again Delta™ raises the bar for pansy quality with the Delta™ Pro

Produce your best pansy crop ever with Delta Pro. Uniformity in flowering, habit and vigor simplifies production. Upright facing flowers on full branching plants shine at retail.

Get all the facts about Delta™ Pro in our Digital Edition.

DELTA™ CLASSIC

Expand your pansy offer for spring or fall with these high demand colors and mixes that complement the Delta Pro assortment. Although Delta Classic varieties have a slightly wider range for flower timing and plant vigor than Delta Pro, they still offer top quality performance in each color class. With early flowering, large, showy blooms and strong plant build these 'must have' colors and mixes will not disappoint in the greenhouse, at retail or in the garden.

PENNY PRO™

Penny Pro has a high level of uniformity across entire series, ensuring a consistent and cohesive display at the right time. Designed to perform excellent in both spring and fall. Growers will appreciate its high programmability and germination power, making viola production efficient and profitable. Tightly branched and non-stretching habit reduces the need for PGRs.

Class	Variety	Type	Comments-Uses
ANISE (<i>Pimpinella anisum</i>)	Anise	Annual	The licorice-flavored leaves are used to flavor confections.
BASIL (<i>Ocimum basilicum</i>)	Aristotle 🍃	Annual	Small-leaved basil with classic basil aroma and taste.
	Bonsai	Annual	See Kitchen Mini Section - Pages 169-170
	Cinnamon	Annual	Similar in appearance to Sweet Basil, with a pleasant cinnamon scent.
	Dolce Fresca AAS	Annual	Compact, bushy plants for a better presentation at retail and greater control in the home garden.
	Everleaf Emerald Towers	Annual	Well branched variety with tight internodes forms a tidy columnar plant. Flowers up to 10-12 weeks later than standard basil for longer harvesting. Traditional Genovese flavor.
	Everleaf Lemon	Annual	This upright variety is well branched with tight internodes. Flowers up to 8 weeks later than standard lemon basil. Its lemon flavor makes a delicious addition to dressings and marinades.
	Genovese	Annual	A favorite for authentic Italian flavor. Perfect for pesto.
	Lemon Basil	Annual	Very strong lemon scent.
	Licorice Basil	Annual	Licorice or anise scent. Looks similar to Sweet Basil.
	Monteverde Genovese <i>New</i>	Annual	Resistant to downy mildew and features a rich, Genovese basil flavor
	Newton	Annual	Fast growing Genovese basil with high resistance to Fusarium. Large, bright green, crinkled leaves.
	Purple Ruffles	Annual	Dark purple, ruffled leaves cover 12" plants. Good for use as an ornamental and in cooking.
	Siam Queen AAS	Annual	Thai basil with extra-large leaves. Very fragrant, with more licorice flavor than Sweet Basil.
	SimplyHerbs Try Basil	Annual	Precision MPLT, each containing 8-14 seeds. Each pellet contains three varieties: Genovese, serrated and dark red selections.
	Sweet Basil	Annual	Used to flavor oils and vinegars. 24-30" plants with leaves up to 4" across.
BORAGE (<i>Borago officinalis</i>)	Borage	Annual	Used in salads, or sprigs can be used in cool summer drinks. Deep blue, star-shaped flowers. 2-4' tall.
CARAWAY (<i>Carum carvi</i>)	Caraway	Biennial	Used to flavor baked goods. Leaves used to season meats. 1-2' tall.
CAT MINT (<i>Nepeta mussinii</i>)	Cat Mint	Perennial	Grows to 1' with loose, open appearance. Reseeds readily.
CATNIP (<i>Nepeta cataria</i>)	Catnip	Perennial	Aromatic herb up to 3' tall. Favorite of cats. Hardy in Zones 4-9.

To place your order: call 800.888.0054 or visit www.griffins.com

Class	Variety	Type	Comments-Uses
CHAMOMILE (<i>Matricaria recutita</i>)	German Chamomile	Annual	Best chamomile for teas. Also known as Hungarian or German chamomile. Perennial in Zones 7-10. Grows 1-2' tall.
CHERVIL (<i>Anthriscus cerefolium</i>)	Chervil	Annual	Resembles parsley. Finely-curved, bright green, pungent leaves are used for garnish and flavoring. Mild parsley flavor. Grows 1-2' tall.
CHIVES (<i>Allium schoenoprasum</i>)	Chives	Perennial	Leaves have mild onion flavor and are used in soups, salads and as a garnish.
GARLIC CHIVES (<i>Allium tuberosum</i>)	Garlic Chives	Perennial	Similar to regular chives, but with a garlic flavor. Hardy in Zones 3-9.
CILANTRO (<i>Coriandrum sativum</i>)	Coriander	Annual	Pungent leaves, used fresh or dried in Mexican and Asian cuisine. Seeds are coriander; leaves are cilantro. Grows 1-2' tall.
	Santo	Annual	Versatile herb with a strong and distinctive scent. Thrives in full sun.
DILL (<i>Anethum graveolens</i>)	Dill	Annual	Seeds, leaves and stems are used to flavor pickles. Grows to 3' tall.
	Fernleaf Dill AAS	Annual	18". Dark green, finely-cut foliage. Excellent dill flavor. Used as an ornamental. Attractive dwarf habit. Less invasive than Dill.
FENNEL (<i>Foeniculum vulgare</i>)	Florence Fennel	Annual	Also known as sweet anise. Cooked as a vegetable. Seeds are used as a spice. Not to be confused with bronze fennel.
HYSSOP (<i>Hyssopus officinalis</i>)	Hyssop	Perennial	24". Very fragrant blue flowers. Used as a perfume base. Ornamental appeal as herbaceous hedge. Hardy in Zones 3-9.
LEMON BALM (<i>Melissa officinalis</i>)	Lemon Balm	Perennial	Pleasant lemon scent. Used to flavor iced tea. 18" tall. Hardy in Zones 3-8.
OREGANO (<i>Origanum vulgare</i>)	Italian Oregano (Common Oregano)	Perennial	A slightly sprawling plant habit with dark green, peppery flavored leaves. 2-3' tall. Used in salads and to flavor meats and sauces. Hardy in Zones 5-9.
	SimplyHerbs Oregano	Perennial	MPLT, each containing 9-14 seeds.
PARSLEY (<i>Petroselinum crispum</i>)	Italian Plain	Biennial	Often called "celery leaf" parsley. Flat, glossy, dark green leaves. Preferred for seasoning/drying. 1-2' tall. Hardy in Zones 5-9.
	Triple Curled	Biennial	Finest strain of triple-curved parsley. Compact, dark green, fine-cut.
ROSEMARY (<i>Rosemarinus officinalis</i>)	Rosemary	Perennial	Semi-evergreen, light blue flowers. Can reach 20" tall. Foliage is slightly pine-scented.
	SimplyHerbs Rosemary	Perennial	Precision MPLT, each containing 10-15 seeds.
SAGE (<i>Salvia officinalis</i>)	Sage	Perennial	Leaves used for seasoning. Lavender-blue flowers through summer. Hardy in Zones 5-9.
SAVORY (<i>Satureja hortensis</i>)	Summer Savory	Annual	Leaves and flowers used to flavor meats. 1-2' tall.
SAVORY (<i>Satureja montana</i>)	Winter Savory	Perennial	Flavor enhancer for vegetables. 1-2' tall.
SPEARMINT (<i>Mentha spicata</i>)	Spearmint	Perennial	Narrow, pointed leaves of bright green with conspicuous veins. 1-2' tall. Used in teas and mint sauces. Very aggressive. Hardy in Zones 5-9.
TARRAGON (<i>Artemisia dracunculus</i>)	Russian Tarragon	Perennial	Not to be confused with French tarragon, which is available from cuttings. Adds good flavor to vegetables. Hardy in Zones 3-8. Grows 2-3' tall.
THYME (<i>Thymus vulgaris</i>)	SimplyHerbs Thyme	Perennial	MPLT, each containing 8-14 seeds.
	Winter Thyme	Perennial	18". Strong fragrance with ornamental value. Not to be confused with French thyme, available as cuttings only. Hardy to Zone 5.
WATERCRESS (<i>Nasturtium officinale</i>)	Watercress	Annual	Tasty salad herb high in vitamin content. Hardy to Zone 8. 1-2' tall.

New**VEGETALIS
COLLECTION**

Container and small space vegetables—curated for you! Seed health and reliable germination are our top priorities. Easy to grow solutions for limited space, including in ground and container gardening. High-yielding, flavorful varieties. Fits urban garden trends

EGGPLANT**AMETHYST**

A compact, well-branching standout with vibrant purple fruits and serious production power. Mostly spineless and easy to handle, it pairs pretty purple flowers with silvery-gray foliage for early visual appeal. Perfect for containers or sunny garden beds, Amethyst keeps the harvest coming strong all season long—beautiful and bountiful!

Height: 22"

Spread: 17"

Days: 60-65

Fruit shape: Oval

BABY JACK

Tidy, well-branching plant that's made for patios and containers. It produces loads of small, round black fruits that can be picked early for tender "baby" harvests, with a long picking season that just keeps going.

Height: 22"

Spread: 17"

Days: 60-65

Fruit shape: Oval

Eggplant Amethyst

Eggplant Pinstripe

POT BLACK

Early, vigorous grower that gets right to work! This compact, spineless beauty is perfect for containers and patios, producing loads of baby-sized Italian-style fruits you can harvest young.

Height: 22"

Spread: 17"

Days: 58-62

Fruit shape: Oval

Eggplant Jackpot (Pot Black)

PINSTRIPE

A true showstopper with its bold purple-and-white striped Italian-style fruits! Pick them young for tender baby eggplants or let them size up as you like. This compact, well-branching, mostly spineless plant features silvery-gray foliage for extra flair, making it perfect for containers or garden beds.

Height: 22"

Spread: 17"

Days: 60-65

Fruit shape: Oval

OKRA

FRENCH QUARTER - PINK

A chic twist on classic okra! This compact, spineless variety shows off dark, serrated foliage and creamy blooms with dramatic dark centers, followed by eye-catching pink pods. Beautiful and productive, it's a stylish standout for edible landscapes and garden beds alike.

Height: 35"

Spread: 17"

Days: 50-55

Fruit shape: Pointed

Okra - French Quarter - Pink

PEPPER - HOT - CHILI

ALTER EGO

The perfect small-space superstar with big personality. This naturally dwarf plant is ideal for patios and containers, pumping out upward-facing peppers that shift from soft cream and purple to vibrant scarlet-red. Expect plenty of fruit thanks to its excellent branching, plus impressive durability—it handles heat and full sun without a fuss.

Height: 17"

Spread: 21"

Days: 85-95

Fruit shape: Medium tapered

BASKET OF FIRE

Dazzling, high-yielding beauty that spills over with color. This compact, semi-trailing plant is loaded with small, fiery peppers that point skyward and put on a show, shifting from deep purple to cream, orange, and finally bright red. Perfect for hanging baskets and containers, it's as ornamental as it is edible—and keeps producing even as the weather cools into fall.

Height: 17"

Spread: 23"

Days: 90-95

Fruit shape: Small thin

CAYANETTA

An award-winning garden star that keeps things neat and spicy. This compact, branching cayenne pumps out loads of bright red 4" tapered peppers tucked under a tidy canopy. Expect a mild-but-zippy heat (~20,000 SHU) and super-reliable performance—Cayennetta shrugs off both heat waves and chilly spells, and its fruits resist sunscald. A polished, easygoing producer for any garden lineup!

Height: 10"

Spread: 21"

Days: 90

Fruit shape: Long tapered

ZEST

A compact beauty with graceful, arching stems that spill perfectly from baskets or containers. It pops with bright orange, medium-heat peppers set against lush green foliage, creating a vibrant, eye-catching display.

Height: 17"

Spread: 19"

Days: 90-95

Fruit shape: Large taper

Lettuce Iceman

Lettuce Great Lakes

ICEMAN

New

Large headed iceberg with dark green leaves that provide cover for uniform heads. Standout disease package allows for great field holding ability. (DM, F, Rs).

Days: 70-75

Type: Iceberg

PINT SIZE

Pint Size lives up to it's name, producing an adorable 5-6", 1-2 serving crisp iceberg type head on each compact plant. Suited to multi-season planting, it resists bolting and is well adapted to many regions. The dark green, wavy outer leaves protect a bright green interior of neatly wrapped inner leaves surrounding a small core. Its superior sweet flavor and distinctive crunch makes it a preferred choice for growers and gardeners, farm markets and specialty packaged retail offerings. 70-80 day maturity.

Days: 70-80

Type: Iceberg

RED SAILS

Rich, bronze-red leaf color. Large, savoyed and crinkled leaves. Slow to bolt.

Days: 45

Type: Loose-leaf

ROMAINE - PARIS WHITE COS

Medium green leaves.

Days: 76

Type: Romaine

Keep It Together

A photograph of a dense, low-growing Sedum plant with thick, green, rounded leaves. The plant is covered in numerous small, pink and white flowers. The text 'Keep It Together' is overlaid in a large, white, cursive font.

NEW Spectacular Sedum won't split!

It holds together all season long, when other landscape sedums open.
Spectacular was bred for strong, compact stems that hold its flowers up without breaking.

Count on NEW Spectacular for sturdy, supportive stems in the landscape.

Contact your Griffin representative to order Spectacular Sedum seed and plugs today.

TERMS & CONDITIONS OF SALE

DEFINITIONS As used herein, the term "Company" means Griffin Greenhouse Supplies, Inc.; the term "Merchandise" means the goods described on the face hereof; and the term "Purchaser" means the purchaser identified on the face hereof.

PRICING The prices for the Merchandise are subject to change without notice in accordance with the prices in effect on the date of shipment.

MINIMUM ORDER SIZE Minimum order amount is \$5. Plant orders under \$75 will incur a \$15 small-order upcharge along with delivery charges.

SHIPPING CHARGES – SEED Standard shipping for seed listed in our program will be included in the seed price on orders totaling \$150 or more, and shipped within the continental U.S. Shipping charges will be added to the invoice on orders totaling less than \$150. All special shipping requests resulting in extra charges will be added to the invoice. Drop shipments directly from the vendor are subject to shipping charges.

RETURNS AND CANCELLATIONS No Merchandise may be returned without authorization from our office. A) Plant orders are custom grown when booked in advance. Please review acknowledgments and confirmations for accuracy to prevent shortages and overages. Griffins cannot accept reductions or cancellations of plant orders once material is sown or stuck by the producer. Product ownership has transferred to the customer at that time. To review vendor specific cancellation terms go to www.griffins.com/plantcancellationpolicy B) Seed orders: The Company will accept return of seed orders for credit pursuant to the following conditions: (i) Seed packages must be returned in the same condition within 30 days of ship date. (ii) No opened or altered seed packages will be accepted for return. (iii) No special-order seed will be accepted for return. (iv) No direct-ship seed, New Guinea impatiens, Primed or PreNova 2.0 seed will be accepted for return without prior authorization. (v) Seed returns must be shipped in protected packaging via a trackable ship method (USPS-(low value only), UPS, Fed Ex). (vi) Purchaser must notify the Company's Customer Service department prior to return of all seed orders. (vii) Purchaser will be charged a 20% restocking fee.

SHIPMENT, RISK OF LOSS AND TITLE Shipments of the Merchandise hereunder are F.O.B. the Company's facility; the Purchaser assumes all risk and liability for loss, damage or destruction after delivery of the Merchandise to the carrier.

CLAIMS All plant deliveries must be inspected upon receipt. Any damage or quality issues must be reported with photos within 24 hours. The Company may request that you plant the usable material with notification of total losses at a later date. In the case of visible shipping damage upon receipt from FedEx/UPS, damage must be noted on your freight bill and signed by the carrier's agent (driver). You must contact the Company within 24 hours to report your claim, at which time we will advise if you need to file the claim directly with the carrier, or if we will handle the claim. Damage that is not visible until the boxes are opened must be reported within 24 hours of receipt. A customer's lack of notification allows the Company to reserve the right to deny credit. The Company will request replacements whenever possible, subject to availability. Any visible damage, whether detected upon delivery or after shipments are opened, must be documented with photographs.

PREPAYMENT REQUIRED SHIPMENTS: Will be made to customers who have not established a credit account or on accounts with a balance over 60 days or greater.

PAYMENTS We accept Cash, Check, Check Upon Request, ACH, ACH Debits and all major Credit Cards (American Express, Visa, MasterCard, and Discover). There are no discounts when paying by ACH Debit or by Credit Card. Credit card payments will be charged a 2% processing fee, charged by Griffin Greenhouse Supplies Inc., and will be charged with the balance being paid. Plant and seed orders cannot be shipped COD due to the perishable nature of the product. Credit Card and COD prepayments in full include payment for the product, sales tax and estimated freight.

FINANCE CHARGES A 1½% per month service charge is added on all overdue accounts. This is an 18% annual charge.

SALES TAX Appropriate state tax will be charged based on the location of delivery. All items will be charged sales tax unless we have a copy of your sales tax license and a properly executed sales tax exemption certificate for the account and any associated ship to locations. In compliance with the law, we must charge the tax on all items; which the state designates as taxable even though you have provided us with your sales tax exemption certificate. If any items purchased are for company use please notify us so the appropriate tax can be charged.

PICTURE DISCLAIMER The Company strives to provide the most accurate rendition of the varieties contained within. However, we rely on our suppliers to have plants correctly labeled for our photography and on images they provide to us. The Company cannot be held liable for incorrect entries, and all pictures and variety names should be verified with the vendor and breeder catalogs. Recommendations made by the Company are compiled from recognized horticultural sources. We are not responsible for damage or losses that occur through secondary parties.

EXCUSABLE DELAYS Any delivery dates agreed to by the Company are only approximate and are subject to reasonable variation. In any event the Company shall not be liable for delays or for failures in performance or default in delivery arising out of or resulting from causes beyond its control. In no event shall the Company be liable for any damages, incidental, consequential, special or otherwise, arising out of any failure to deliver any merchandise to the Purchaser, any delay in delivery thereof, or any rejection or revocation of acceptance thereof by the Purchaser.

PROHIBITION ON REPRODUCTION OR RESALE OF SEEDS The Merchandise is to be used solely in the production of crops. The Purchaser must under no circumstances make use of the Merchandise for further reproduction or any other form of multiplication. After grading, calibrating, pelleting or treating in any other way the Merchandise, the Company's warranty shall be void and of no further force and effect. The Purchaser must undertake to impose the prohibition laid down in this section on its own buyer on the understanding that they will also do the same for their subsequent customers. The Merchandise is not intended for retail sale; resale is strictly prohibited.

WARRANTIES Crop yield and quality are dependent upon many factors beyond the control of the Company and NO WARRANTY is made for crop yield and quality. The Company warrants only that all seeds, bulbs, plants or merchandise sold have been labeled as required under applicable state and federal seed law and the seeds, bulbs, or plants conform to the label description which recognized tolerances. THE ABOVE WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, WRITTEN OR UNDERWRITTEN, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THERE ARE NO WARRANTIES, WHICH EXTEND BEYOND THE DESCRIPTION ON THE LABEL. No claim shall be asserted against the Company unless the Purchaser reports to the Company within a reasonable period after discovery (not to exceed 30 days any condition that might lead to a complaint.) THE PURCHASER'S EXCLUSIVE REMEDY FOR ANY CLAIM OR LOSS RESULTING FROM BREACH OF WARRANTY, BREACH OF CONTRACT, OR NEGLIGENCE (INCLUDING BUT NOT LIMITED TO INCIDENTAL OR CONSEQUENTIAL DAMAGES) SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE.

CLAIM REQUEST

As you're well aware, claims are a fact of life in the horticulture business. Claim activity often peaks in the winter months. Griffin is committed to managing the claims process quickly and efficiently. With your help, we can resolve claims promptly to minimize the impact on you and your productivity.

Reasons to request a claim, in the rare instance that...

- You open your plug shipment mid-February and your plants are frozen
- You open your poinsettia shipment in July and appears to have overheated in transit
- You receive your shipment and notice several empty cells
- Your plants are blooming pink instead of red
- You're paying your invoice and notice a pricing error

It's time to file a claim – but how?

1. Embrace earliness. Report ANY trouble – even potential trouble – immediately to your Griffin Sales or Customer Service representative. Most vendors require notification within 24-48 hours of receipt. You must file a claim with us, even if you've contacted the vendor directly. If the plants rebound and the problem corrects itself, we can always close the claim – no harm done.

For seed, if you receive the wrong variety, product form or package size, contact your Customer Service rep immediately for a prompt replacement. Do not open the package as we cannot accept returns on opened packages.

2. Get specific. We'll take as much detail as you can dish out regarding the affected products and the trouble you're having. Often a photo of the label on the tray or tag in the bag of URCs is helpful to clearly identify where the plants came from which helps to validate the issue and address the cause. With seed claims, we'll ask for variety and batch information, delivery date, order number and/or invoice number. For seed germination issues, we need to know the approximate % germination achieved.

3. A picture is worth a thousand words (and a few dollars). Sometimes it's difficult to describe what's wrong with plants. Dated timely photos are required for claims relative to quality, wrong color, wrong variety or freight damage.

4. Add it up. The sooner we have your final loss counts (within 10 business days is ideal), the quicker we can coordinate with the vendor and issue your credit – or, possibly, replacements.

5. If you see freight damage, note this on Bill of Lading and take required dated photos. They are extremely helpful. We'll work with the vendor and the freight company to provide additional documentation as needed and start the process to secure replacements.

6. Do the math. Before reporting short counts, consider the quantity you're being invoiced per tray. For example, a 512 plug tray may only be billed as 485, so you get 27 "free." If your tray is missing 12 plugs, you still have 15 extra that you weren't billed for.

7. Review order acknowledgments – an ounce of prevention. Confirming quantities, varieties and ship weeks could prevent a claim in advance! If you find an error, contact your Sales or Customer Service representative immediately. Doing so helps us correct the issue before running into vendor cut-off dates for order changes.

8. Keep an eye on your invoices. If you see incorrect pricing on the first invoice in a series of orders, we can correct future orders before they're billed.

9. Return the right way. If you need to return seed, contact us in advance to provide a reason and get return instructions. Please refer to our return policy located in the terms and conditions of sale published on our website, in your seed price book and in your Griffin Seed & Plant catalog. Non-compliant seed returns are subject to a 20% restocking fee.

10. Don't dump product – at least not in a hurry. Some vendors require the product to be returned for testing; freight companies may want to inspect for damage. Our Claims team or your Sales representative will confirm when it's okay to toss.

Our goal is to facilitate claims resolution in a timely manner. We value your business and are dedicated to helping you maintain productivity and profitability. If you have any questions about the claims process, please let us know.

MEET OUR TEAM

We are here to help with your questions on all of these varieties and more.

Here is a list of the sales reps in your area.

Give us a call to see how we can help!
