2027 TOP VEGETATIVE PICKS

STAND OUT SELECTIONS

FOR 2027

Each year, the Griffin sales team selects their favorite new vegetative varieties from hundreds of introductions by our trusted breeding partners. In this issue, we've highlighted more than 100 standout selections we believe will bring value to your product lineup—contact your Griffin Plant Sales Representative or visit griffins.com for more information or to place an order.

SYNGENTA FLOWERS Annuals

HELIANTHUS SUNFINITY® SINGLE YELLOW

The Sunfinity® Sunflower family expands its vegetative lineup with the addition of Single Yellow, delivering grower-friendly innovation. Expect garden performance, continual flowering, and high resistance to powdery mildew throughout the summer season. Vigorous, well-branched plants perform exceptionally well in both large patio containers and in-ground plantings. This single-flower selection matches Sunfinity® Double Yellow in habit and timing.

A close-up photograph of two dahlia flowers. The flower in the foreground is in sharp focus, showing its intricate, double-petaled structure. The petals are a pale yellow or cream color, with many of them featuring distinct, dark purple or magenta variegation, particularly towards the tips. The flower in the background is slightly out of focus, showing a similar but more uniform pinkish-petal structure. The overall lighting is soft and natural, highlighting the delicate textures of the petals.

DAHLIA COFFEE SHOP™ LAVENDER LATTE

This striking, dark-foliaged dahlia creates dramatic contrast in borders. Fully double blooms, strong garden performance, and excellent powdery mildew resistance keep plants looking fresh and vibrant from summer through fall frost. Ideal for patio containers, cutting gardens, and landscape beds, this upright, medium-vigor dahlia delivers continuous waves of café-inspired color on sturdy stems. Dahlia Coffee Shop™ ‘Lavender Latte’ features beautiful cream-to-lavender blooms, with foliage that deepens in shade and intensity under bright conditions.

A

KWIK KOMBO™

Kwik Kombos™ bring vibrant color to every season and every region. Organized by color category, they make it easy to build consistent programs from early spring through summer. Choose from Bright & Bold, Coastal Hues, Jewel Tones, Monochrome Blends, Primary Colors, and Red, White & Bloom. These ready-made, single- and multi-species combinations are trialed for uniformity and staying power, featuring top-performing Syngenta Flowers genetics that simplify production while driving excitement at retail. With 95 unique combinations, the design possibilities are virtually endless.

- (A) Amethyst Falls™ Mix
- (B) Pink Paradise™ Mix
- (C) Pink Out Loud™ Mix
- (D) Dekko™ Daydreamer™ Mix
- (E) Misty Morning™ Mix
- (F) Lanai® Summer Celebration™ Mix

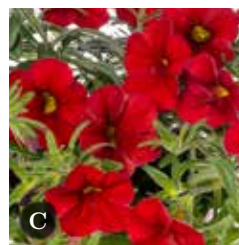

CALIBRACHOA CALLIE®

Big vigor meets bold color in Callie® Calibrachoa, delivering continuous flowering from spring through fall. A go-to mixer and cornerstone of many best-selling Kwik Kombos™, Callie® excels in premium hanging baskets and mixed containers with a medium-vigorous, trailing habit. With 26 vibrant colors in the series, the New Orange Sunrise shines for its dynamic blooms that shift from deep coral to bright orange as light levels change. Recent improvements further strengthen the lineup—Dark Red offers a refined habit with larger, vividly red flowers and enhanced garden performance, while Yellow Improved delivers improved branching and increased flower size for fuller, more impactful displays.

(A) Callie® Orange Sunrise (B) Callie® Yellow Imp. (C) Callie® Red

LANTANA HOT BLOODED® MEGA RED

Red-hot attitude meets unstoppable heat performance in the Hot Blooded® lantana series, a true summer powerhouse delivering bold orange-to-red blooms that thrive when temperatures rise. Sterile flowers drive nonstop flowering and exceptional garden vigor, creating a long sales window and reliable consumer success. Growers and retailers can choose Hot Blooded® Red for a classic, well-mounded habit or step up to Hot Blooded® Mega Red, which delivers larger flowers and MEGA vigor, excelling in landscapes and large containers for maximum impact.

PETUNIA DEKKO™ YELLOW

Exceptional garden performance puts Dekko™ in a class of its own. This dynamic petunia series offers both core and unique colors, perfect for adding instant wow to mixed combinations and basket programs. Its versatile habit performs beautifully from small containers to landscape plantings. With 15 colors in the series, Dekko™ Yellow replaces Dekko Banana, delivering larger, brighter yellow blooms and earlier flowering for season-long color.

PETUNIA ITSY™ BLUE

With exceptional color coverage and good vigor, Itsy™ delivers standout performance in both containers and the landscape. Masses of tiny blooms form a dense, eye-catching blanket of color that commands attention at retail. Superior branching and a controlled habit make this groundcover petunia a favorite with both growers and consumers alike. Available in four colors.

GERANIUM MOXIE!TM STRAWBERRY SPLASH (A)

Moxie!TM is the only interspecific geranium series bred for intense color and space-efficient production in small pots. Compact-to-medium vigor and a mounding habit maximize pots per square foot while delivering strong, grower-friendly performance. Moxie! combines production efficiency with Callope[®]-style flowering for vibrant, long-lasting summer color. Featuring eight colors—including the novelty bicolored Strawberry Splash with soft pink edges and a vivid strawberry wash—Moxie! delivers high style and impact for any program.

PRETTY LITTLETM WHITE SPLASH (B)

Pretty LittleTM Geranium delivers season-long color with an abundance of bicolor blooms and strong branching on a naturally compact, early-flowering plant. Interspecific breeding delivers the perfect combination of multibloom flowering and exceptional garden performance. Ideal for small containers, quarts, and branded jumbo packs, this series includes two colors. Pretty LittleTM White Splash stands out for its floriferous white blooms accented with a soft rose splash.

MANTRATM CORAL (C)

Geranium Interspecific MantraTM Coral features huge coral blooms, a strong upright-mounding habit, and medium-vigorous growth. Mantra's dark green foliage and large flowers offer excellent heat tolerance, ensuring reliable summer performance. This standout geranium excels in 2.5-quart and larger containers and is available in four colors.

BEGONIA iCANDYTM XL DEEP YELLOW (D)

iCandyTM hybrid begonias deliver premium garden center appeal with large, fully double blooms in vibrant colors set against rich, dark chocolate foliage. iCandy finishes beautifully in quarts, larger containers, and upscale hanging baskets, offering strong performance from part sun to shade and confident consumer success. The XL Deep Yellow selection stands out with deep yellow cascading flowers and higher vigor, comparable to iCandy Coral Pink. Available in six coordinated colors, iCandy is an excellent choice for patio programs and high-end retail displays.

DIPLADENIA MADINIA®

Dipladenia Madinia® Hot Pink delivers non-stop summer color with heat-loving performance that thrives all season long. Early-flowering plants are loaded with vibrant hot pink blooms, creating instant impact at retail. Naturally bushy habits and limited vining support efficient production, maximize bench space, and reduce labor. Backed by a dependable vegetative program, the Madinia® series offers medium-vigor performance across seven colors—providing flexible, reliable programs from grower to retail.

Madinia® Petite White Blush flowers early with reduced PGR needs and a non-vining habit, enabling high-density production in small pots. Compact, mounded plants are loaded with beautiful tropical blooms that deliver effortless color all summer. Perfect for small gardens, mixed containers, and hanging baskets, this series offers excellent flower power and is available in four colors.

PENTAS STARCLUSTER™

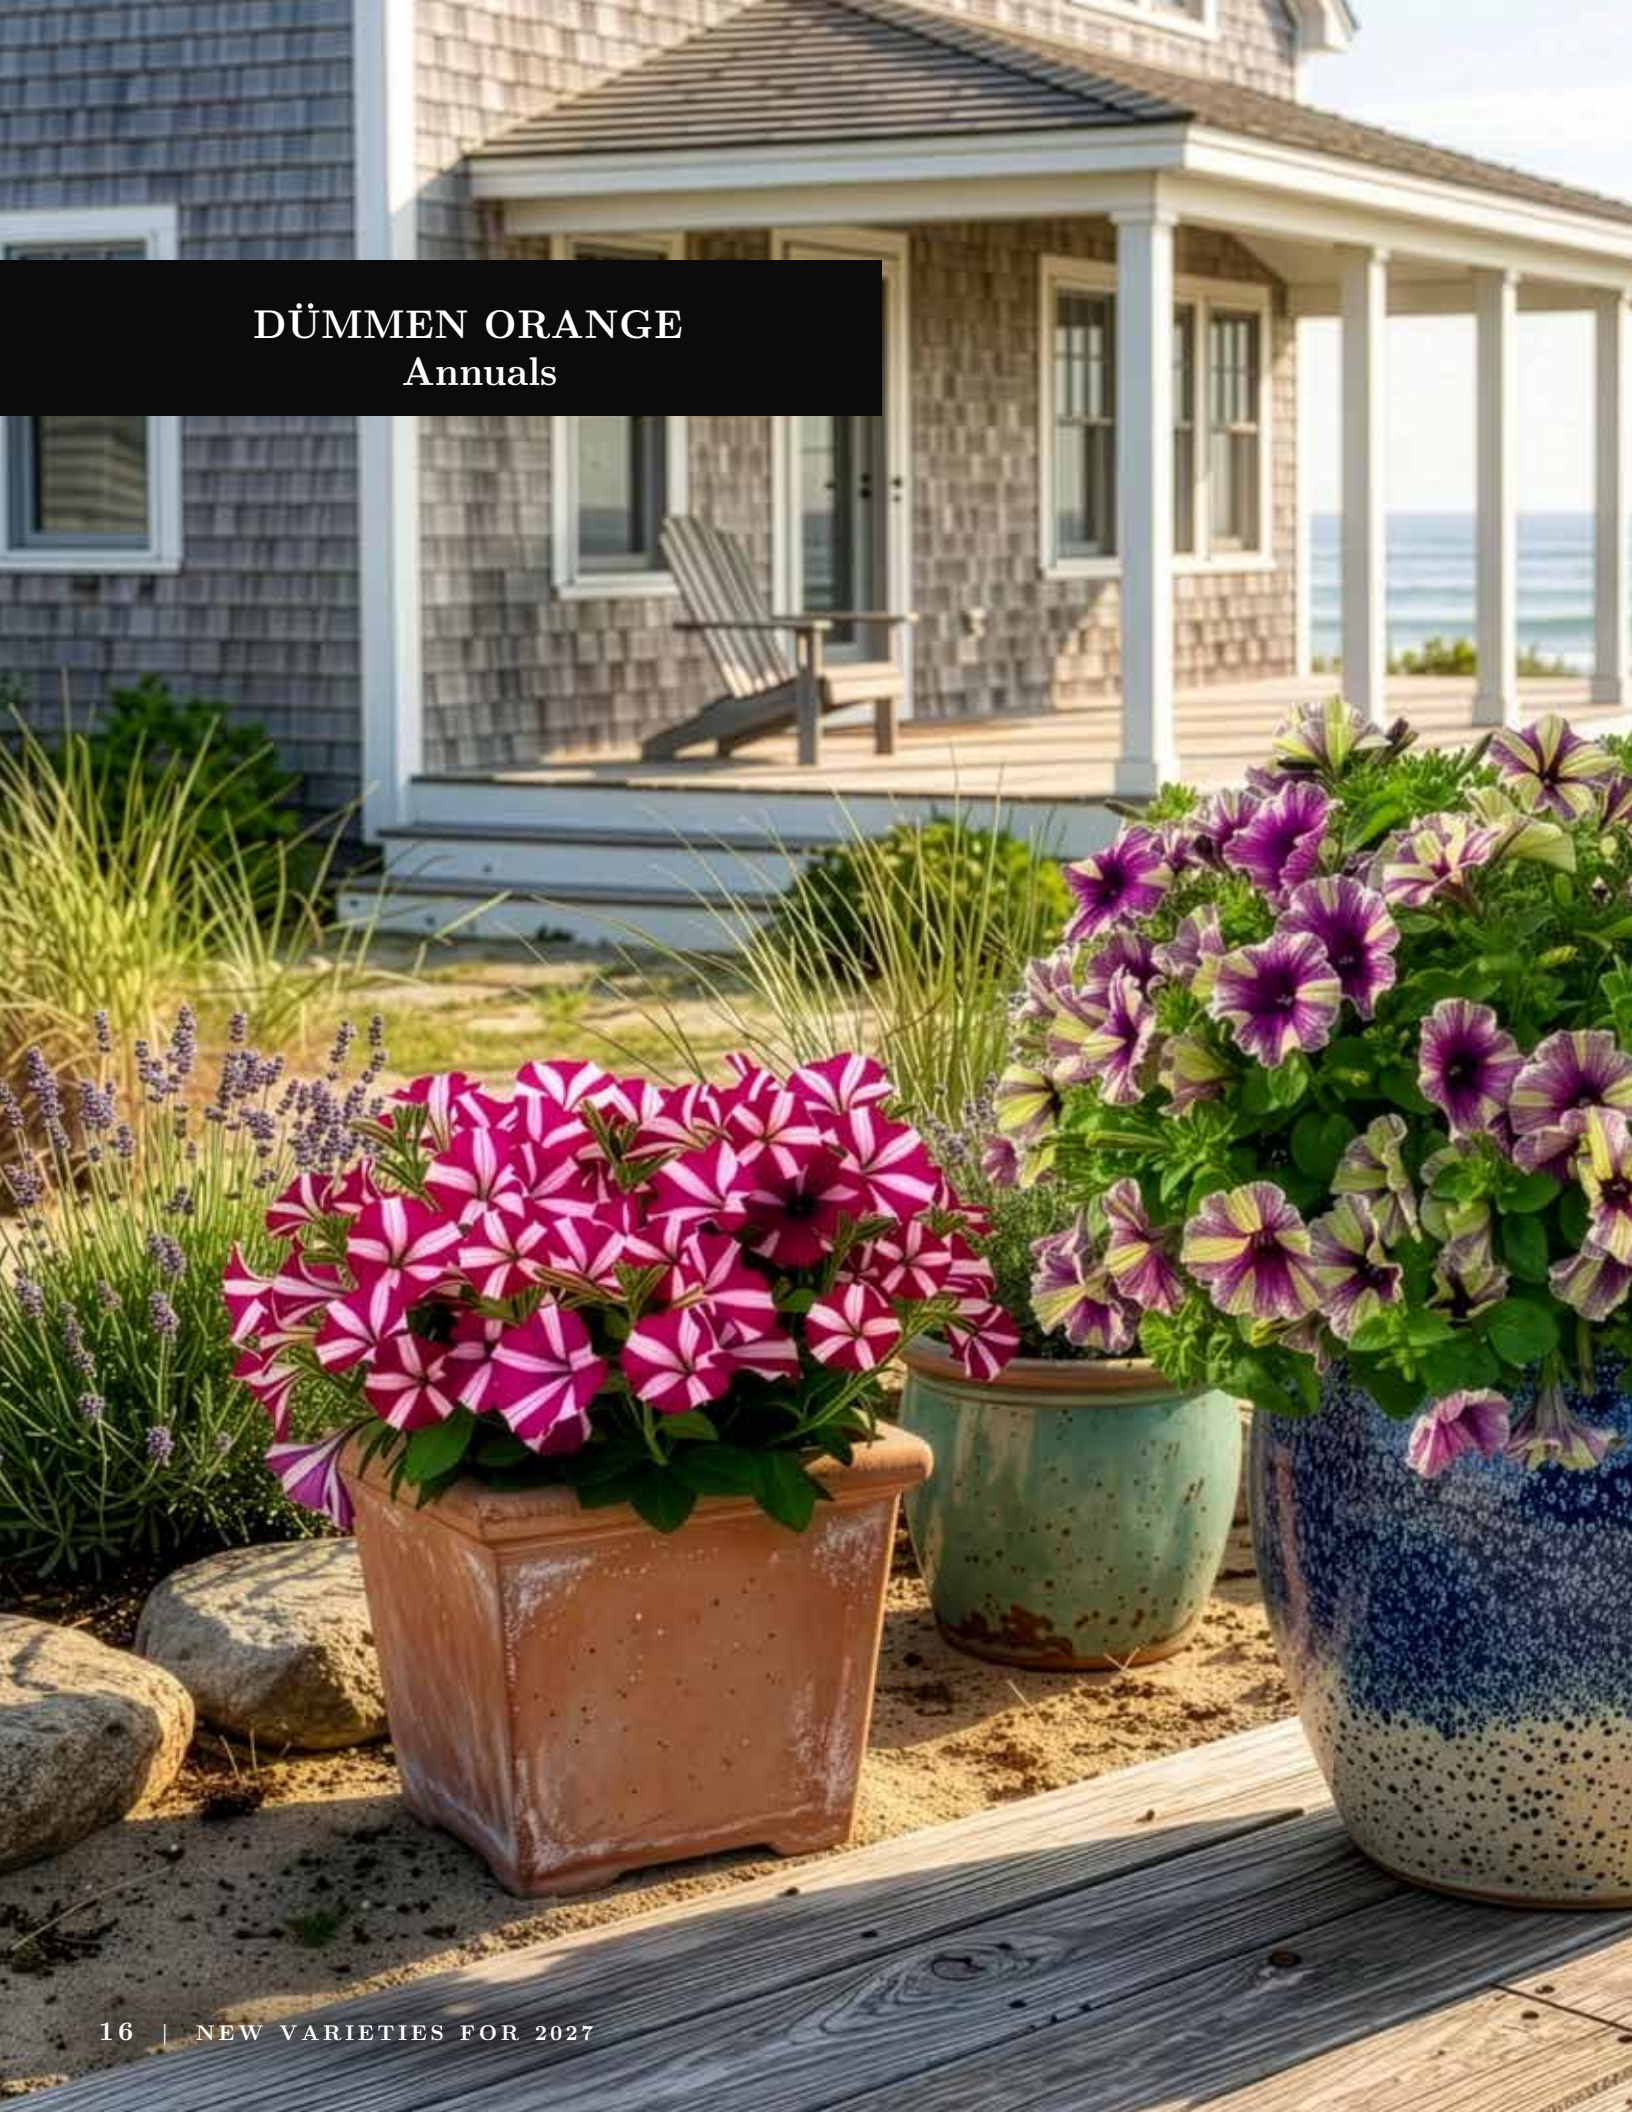

Strong habits, big flowers, and bold color define the Pentas Starcluster™ series—an ultimate performer for summer heat. Upright plants are ideal for impactful summer combinations, while vibrant blooms attract pollinators all season long. Starcluster™ Cherry stands out with large, bright cherry-colored flowers held on well-branched plants. This medium-vigorous series is available in nine colors, offering high-impact options for summer programs.

VINCA NIRVANA® XDR WHITE

The only vegetative vinca with proven XDR-level resistance to multiple strains of aerial Phytophthora, Nirvana® XDR sets a new standard for summer performance. A true heat lover, it continues blooming through intense summer conditions, delivering reliable color when it matters most. Medium vigor plants feature a mounded habit and distinctive, novel flower colors, making them ideal for premium containers and mixed combinations. Backed by university-confirmed research and available in 8 colors in the series, Nirvana® XDR White offers confidence, resilience, and standout retail appeal.

A photograph of a coastal house with a porch, featuring a wooden deck and a white railing. In the foreground, three large pots of petunias are displayed on a wooden deck. The pots are terracotta, light green, and blue and white speckled. The petunias have various colors, including pink, purple, and white. The background shows the house with a porch and a view of the ocean.

DÜMMEN ORANGE Annuals

PETUNIA SWEETUNIA®

Sweetunia® Petunia continues to be a grower and retailer favorite, offering a medium-upright habit and a profusion of colorful, uniquely patterned blooms. Selected for excellent pattern stability, dense branching, and long-lasting flowers, this versatile petunia delivers vibrant impact across multiple container sizes. With a semi-upright habit, medium vigor, and 15 colors in the series, Sweetunia® performs beautifully on its own or as a reliable combination filler.

(A) Windmill Burgundy (B) Violet Vortex (C) Windmill Rose

C

CALIBRACHOA RAINBOW®

Rainbow® is a true grower's series featuring vigorous varieties whose blooms dynamically change color in response to temperature, light levels, and day length at bud initiation. The result is a striking, ever-evolving tricolor display across the plant. With a compact-medium vigor, mounded habit, and 10 colors in the series, Rainbow® delivers dependable, consistent results with standout visual interest.

(A) Parisian Pink 2027 (B) Orange You Happy (C) Red Lava

CALIBRACHOA BLOOMTASTIC® ORANGE CARTWHEEL

Bloomtastic® Calibrachoa Orange Cartwheel delivers extra-large, vivid orange blooms highlighted by striking yellow cartwheel patterns. Exceptionally durable and heat-tolerant, these vigorous, trailing plants offer strong garden performance through the hottest months of the season. Offered within a 14-color series, Bloomtastic® brings bold impact to baskets, containers, and summer landscapes.

PORTULACA CUPCAKE®

Portulaca Cupcake® delivers bright, early blooms paired with outstanding heat and drought tolerance for effortless summer color. Low-maintenance plants perform beautifully in pots, baskets, and garden beds, offering bold impact with minimal care. With a semi-trailing habit, medium-vigorous growth, and nine colors in the series, new bicolor additions bring strong pattern stability and uniform growth to this reliable summer performer.

(A) Purple Touch 2027 (B) Burgundy Touch (Not Pictured)

BEGONIA I'CONIA® VALENCIA PINK

I'Conia® begonia varieties represent a premium line of garden begonias, featuring plump, oversized double blooms set against rich, dark foliage with consistent performance in both sun and shade. The series offers a semi-upright habit, medium vigor, and five colors. Valencia Pink delivers bold, hot pink double flowers atop dark-veined green foliage, making it a strong, high-impact addition to the series.

DAHLIA SUMMER BEES®

The Dahlia Summer Bees series combines strong visual appeal with pollinator-friendly performance, delivering vibrant, long-lasting color that attracts bees throughout the season. Well-branched, upright plants showcase distinctive single-bloom bicolors, adding energy and movement to gardens and containers. The series now offers four colors, bringing expanded choice with the same reliable habit and medium vigor.

(A) Salmon Bicolor (B) Red Star

CONFETTI GARDEN®

Confetti Garden® Aloha Kona Hawaiian Toucan brings together best-selling calibrachoa selections for vibrant, uniform displays with matched, balanced color. Well matched in vigor and timing, these tropical-inspired combinations deliver strong visual impact from 6" pots to 12" hanging baskets and planters. The component plants are Aloha Kona Neon Fuchsia, Yellow and Dark Lavender.

- (A) Aloha Kona Hawaiian Toucan

Annuals

A

CALIBRACHOA SUPERBELLS® DOUBLE SERIES

The Superbells® Double series delivers early, double-flowering calibrachoa with vigorous, reliable performance and strong heat tolerance, finishing in neat mounded to mounded-trailing habits well suited for sun-filled spaces and an extended spring-through-fall sales window. New introductions include Superbells® Double Mardi Gras, a true breakthrough featuring a first-of-its-kind pattern with fully double lavender-purple blooms splashed with yellow and white, and Superbells® Double Midnight Magenta, offering intense magenta double flowers accented by a rich magenta-red eye. Both varieties flower early and perform consistently, making them ideal for Grande™ containers, hanging baskets, and window boxes with the easy-to-grow quality growers and gardeners expect from Superbells®.

(A) Double Mardi Gras (B) Double Midnight Magenta

B

FUCHSIA SUN PENDANTS™ HOT PINK

Fuchsia Sun Pendants™ Hot Pink offers greatly improved heat and sun tolerance, delivering continuous blooms over a much longer season than traditional varieties. Vivid hot pink flowers with a magenta-purple corolla are produced abundantly without deadheading on upright, mounded to semi-trailing plants. An essential choice for sun-to-shade container recipes, this versatile selection shines in Grande™ containers, hanging baskets, and window boxes from spring through fall.

A

B

SALVIA OUTSHINE™

The Salvia Outshine™ series redefines performance for *Salvia greggii*, delivering consistent, prolific flower coverage on well-branched plants with a naturally rounded, ball-shaped habit. Built for today's landscapes, Outshine™ thrives in heat and humidity, resists deer, and attracts pollinators—making it a must-have for commercial plantings, public spaces, and home gardens alike. Blooming from summer through fall, the series reaches 12–24 inches tall and is offered in two colors: orchid and red.

(A) Orchid (B) Red

KIENTZLER NA Annuals

GOMPHRENA SPITFIRE PINK

Gomphrena Spitfire Pink delivers standout summer performance with a unique, compact upright habit, reaching 18 inches tall and featuring medium vigor. Free-branching plants are topped with distinctive, ball-shaped flowers that hold strong color in heat, making this variety a reliable choice for warm-season landscapes. With excellent shelf appeal and bold, long-lasting blooms, Spitfire Pink brings durability, texture, and high visual impact from retail through the landscape.

JAMESBRITTENIA JAMMIN'

Jamesbrittenia Jammin' is a versatile trailing component that delivers reliable performance from spring into summer. Heat tolerant and easy to grow, its medium-vigor, mounded-to-trailing habit makes it ideal for baskets and mixed combos. Offered in five colors; Wine, Coral, Pink Passion, Lilac, and Pink. The series provides flexible design options with consistent, well-matched performance.

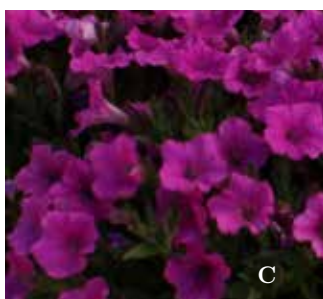

(A) Wine (B) Coral (C) Lilac (D) Pink Passion

TORENIA TROPICS

Torenia Tropics is a new series featuring strong branching and medium vigor for reliable garden and container performance. Heat and disease tolerant with self-cleaning flowers, these varieties are ideal for shade combinations and attract hummingbirds with ease. Offered in four vibrant colors.

(A) Amethyst (B) Lilac (C) Silver (D) Rose

SHOWTIME® PETUNIA

ShowTime® Petunia introduces a new series of colorful, small-flowered petunias with outstanding garden performance. Designed to maintain a clean, consistent habit, these highly floriferous plants are wilt resistant, day-length neutral, and easy to finish. Offered in four colors, ShowTime® delivers reliable performance and season-long color for containers and landscapes alike.

(A) Lilac Punch (B) Orchid Flash (C) Pink Punch (D) White

SALVIA SPLENDOR FUCHSIA (A)

Salvia Splendor Fuchsia delivers bold garden impact with large flower spikes that bloom continuously all summer long. Featuring an upright habit reaching 30" in height and medium-vigorous growth. This pollinator-friendly salvia performs beautifully in landscapes and large containers alike. Offered in three colors, the Splendor series provides reliable structure, strong color, and long-lasting seasonal performance.

SALVIA SPLENDOR CHARM (B-C)

Salvia Splendor Charm is a new, more controlled version of Salvia Splendor, offering the same strong color and performance with improved usability in combinations. Featuring a medium-vigor, upright habit reaching 18" in height, this pollinator-friendly series is easy to integrate into mixed plantings.

(B) Cherry (C) Indigo

COLEUS CRIMSON MAGIC

Coleus Crimson Magic is a striking standalone variety with an upright, open habit and medium vigor. Multicolored foliage showcases bright yellow tones accented by contrasting red stems, delivering bold visual impact. Flexible and easy to combine, Crimson Magic intermixes beautifully with other crops, including SunPatiens®, making it an excellent choice for mixed containers and combination programs.

COLEUS TERRASCAPE® COSMIC CONFETTI (UPRIGHT)

Coleus TerraScape® (Upright) Cosmic Confetti delivers eye-catching, multicolored foliage with freckled shades of lime, pink, and purple. Featuring an upright habit and medium vigor, this standout variety thrives in both full sun and partial shade. Part of a diverse TerraScape® series offering five mounding and ten upright selections, Cosmic Confetti performs beautifully in landscapes, patio pots, and baskets.

COLEUS TERRASCAPE SERIES (MOUNDING)

The Coleus TerraScape® (Mounding) Series delivers bold foliage color with late flowering, excellent branched structure, and strong wilt resistance. Well suited for landscapes, patio pots, and hanging baskets, these mounding selections feature finely feathered leaves. All That Lime Twist stands out with solid lime green foliage, while All That Cinnamon Pop adds warm cinnamon tones edged in lime for striking contrast, both offering excellent branching and dependable garden performance.

(A) All That Cinnamon Pop (B) All That Lime Twist

SAKATA Annuals

PETCHOA SUPERCAL®

The Petchoa Supercal® Premium series delivers reliable, all-weather performance with a strong, mounded habit and medium-vigorous growth, offering excellent branching, outstanding durability, and 16 rich colors for premium containers and landscapes. New additions include Supercal® Premium Purple Ice, featuring large lavender blooms with deep purple throats that blend beautifully with pink palettes; Supercal® Premium Pink Star, with bold deep pink flowers highlighted by a crisp, clear star pattern; and Supercal® Premium Sunset Orange Improved, an enhanced selection bred for fade-resistant orange color, strong vigor, and season-long impact—ideal for late-season and fall plantings.

(A) Sunset Orange (B) Pink Star (C) Purple Ice

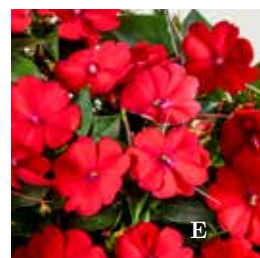

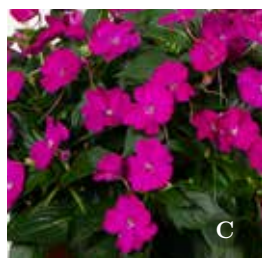

SUNPATIENS® PETITE

Introducing a new miniature SunPatiens® series designed specifically for containers and hanging baskets—not intended for landscape use. SunPatiens® Petite delivers large, showy blooms on compact plants with excellent heat and drought tolerance. Maintaining a dense, bushy habit all summer long, this series provides reliable performance and strong retail appeal, offered in five vibrant colors.

(A) Orange (B) Blush Pink (C) Purple
(D) Rose (E) Scarlet Red

SUNTORY Annuals

MANDEVILLA SUN PARASOL® FIREDUP® MAGIC PINK

Sun Parasol® FiredUp® Magic Pink delivers full, vigorous plants topped with large, show-stopping blooms for outstanding landscape and container performance throughout the season. Upright plants with medium vigor are best finished in gallon pots or larger, providing strong structure and presence at retail. Flowers open in a soft blush and deepen to a rich coral pink with age, adding dynamic color interest to this three-color FiredUp® series.

MANDEVILLA SUN PARASOL® XP MAUI SUNSET

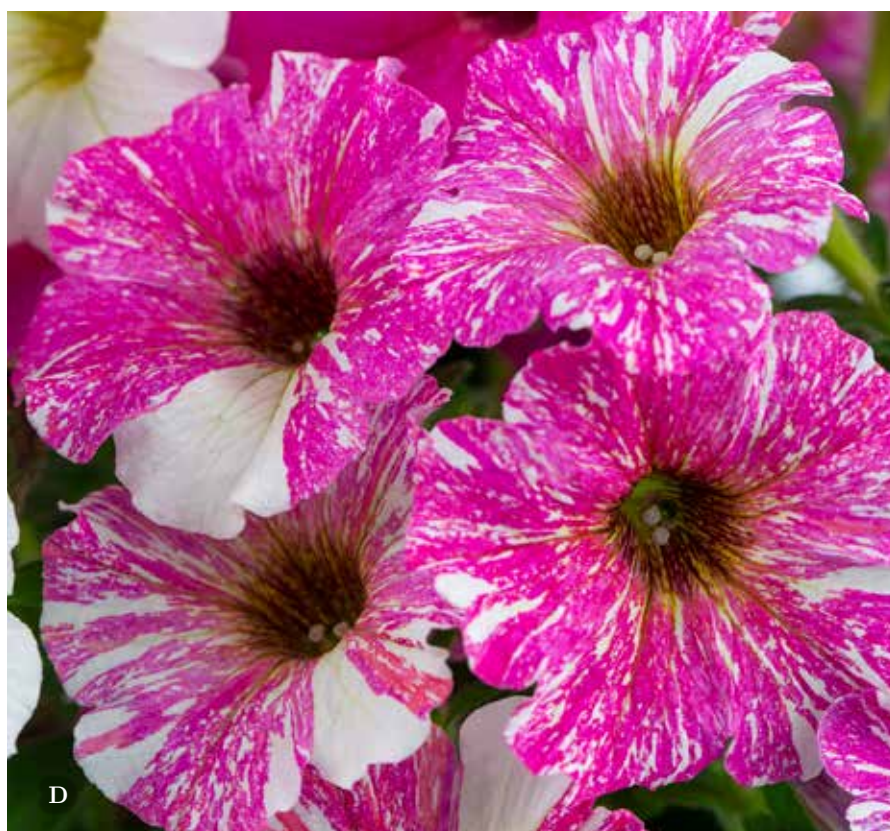

The Sun Parasol® XP series delivers ultra-compact, grower-friendly plants that require no plant growth regulators, making them ideal for small pots and table-top presentations. Featuring a clean, upright habit with medium vigor, the six-color series offers efficient production with strong visual impact. Sun Parasol® XP Maui Sunset introduces a bold “big kahuna” color, showcasing extra-large coral-tinged orange blooms on a slightly more upright habit falling in between the growth styles of XP and FiredUp® selections.

MANDEVILLA SUN PARASOL® GIANT POWDER PINK

Sun Parasol® Giant Powder Pink represents the classic vining mandevilla, featuring vigorous, heat-loving plants that naturally climb and trail beautifully on trellises and obelisks. Large, elegant blooms are complemented by attractive, glossy green foliage for strong garden and container presence. Offered in a six-color series, Giant Powder Pink stands out with soft light-pink flowers, each petal defined by a decorative edge.

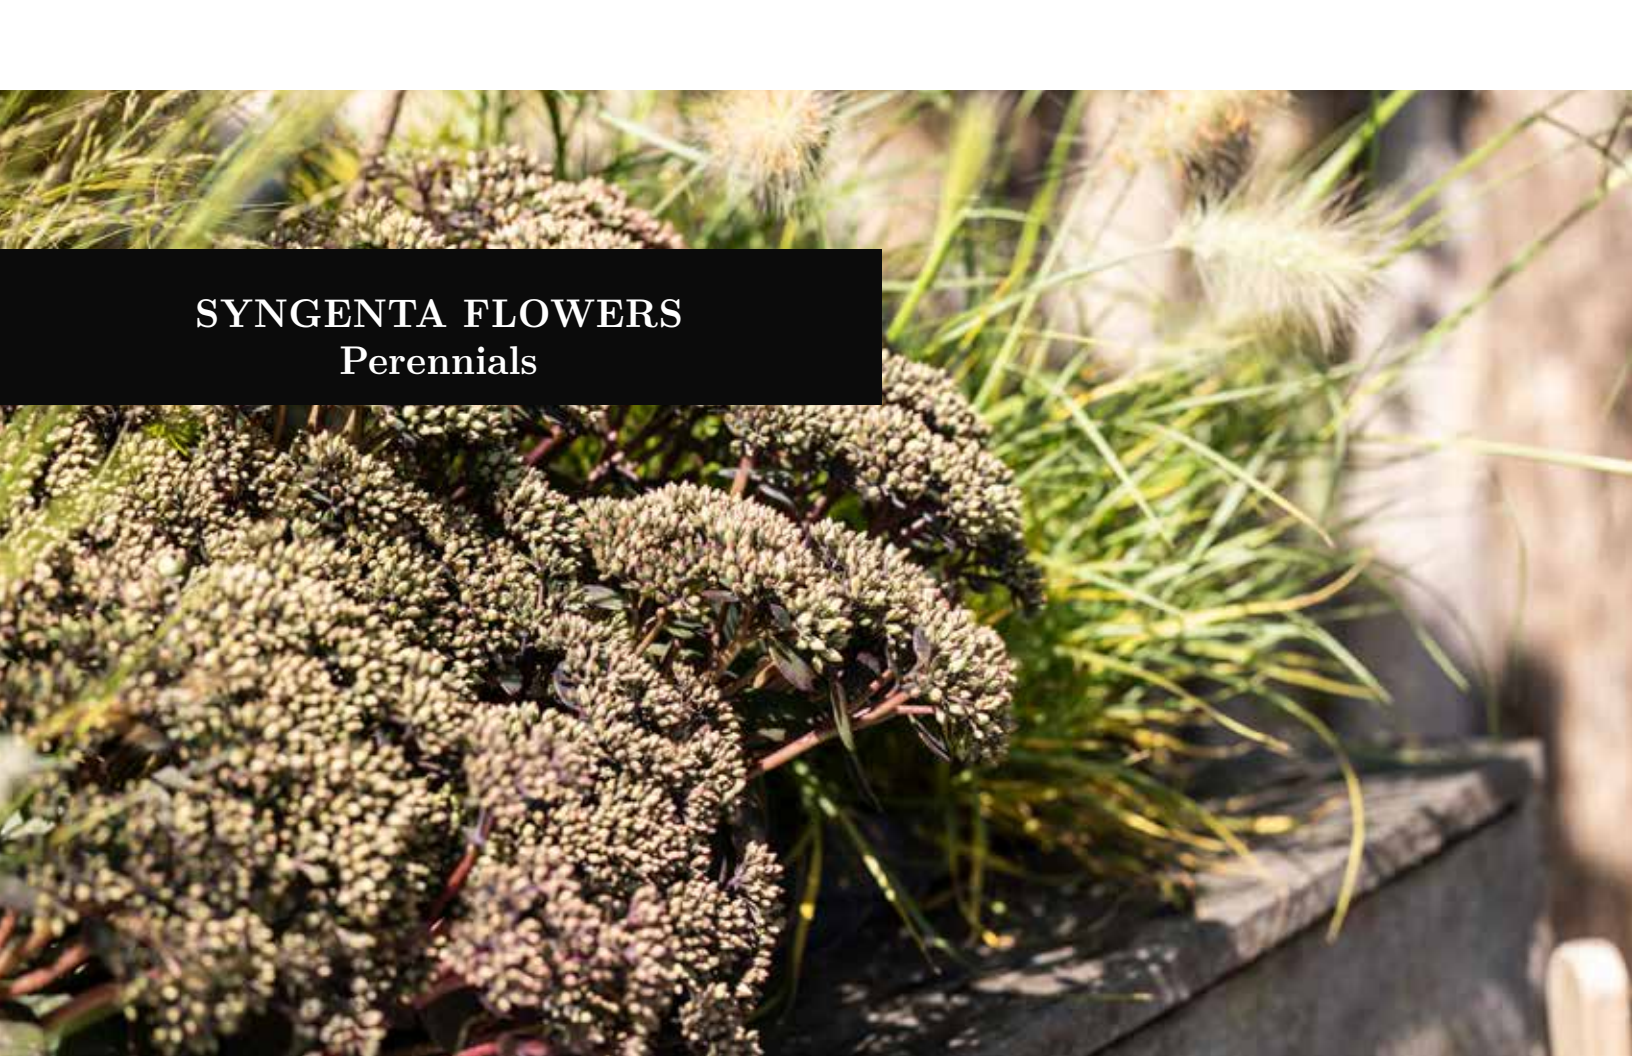

WESTHOF Annuals

PETUNIA CRAZYTUNIA®

The Crazytunia® series stands out with unique colors and bold patterns that drive impulse sales and deliver a distinctive pop of color in the garden. Breeding continues to focus on clear, crisp pattern definition and vibrant color expression, paired with upright, mounding habits, early flowering, and heavy branching for strong retail appeal and season-long performance.

(A) Buttercream Blush (B) Skookum Star (C) Frogger White (D) Pink Zebra

SYNGENTA FLOWERS

Perennials

SEDUM HOT ROCKS™ DARK LEAF RED

Contemporary breeding delivers a modern alternative to traditional open-market sedums. Hot Rocks™ Dark Leaf Red stands out with a compact, upright habit highlighted by vibrant deep red flowers set against rich, dark chocolate foliage. Excellent branching ensures full plants with increased flower coverage and reduced lodging, keeping displays attractive all season long. This medium-vigor selection is hardy in Zones 4–10 and grows in part shade to full sun.

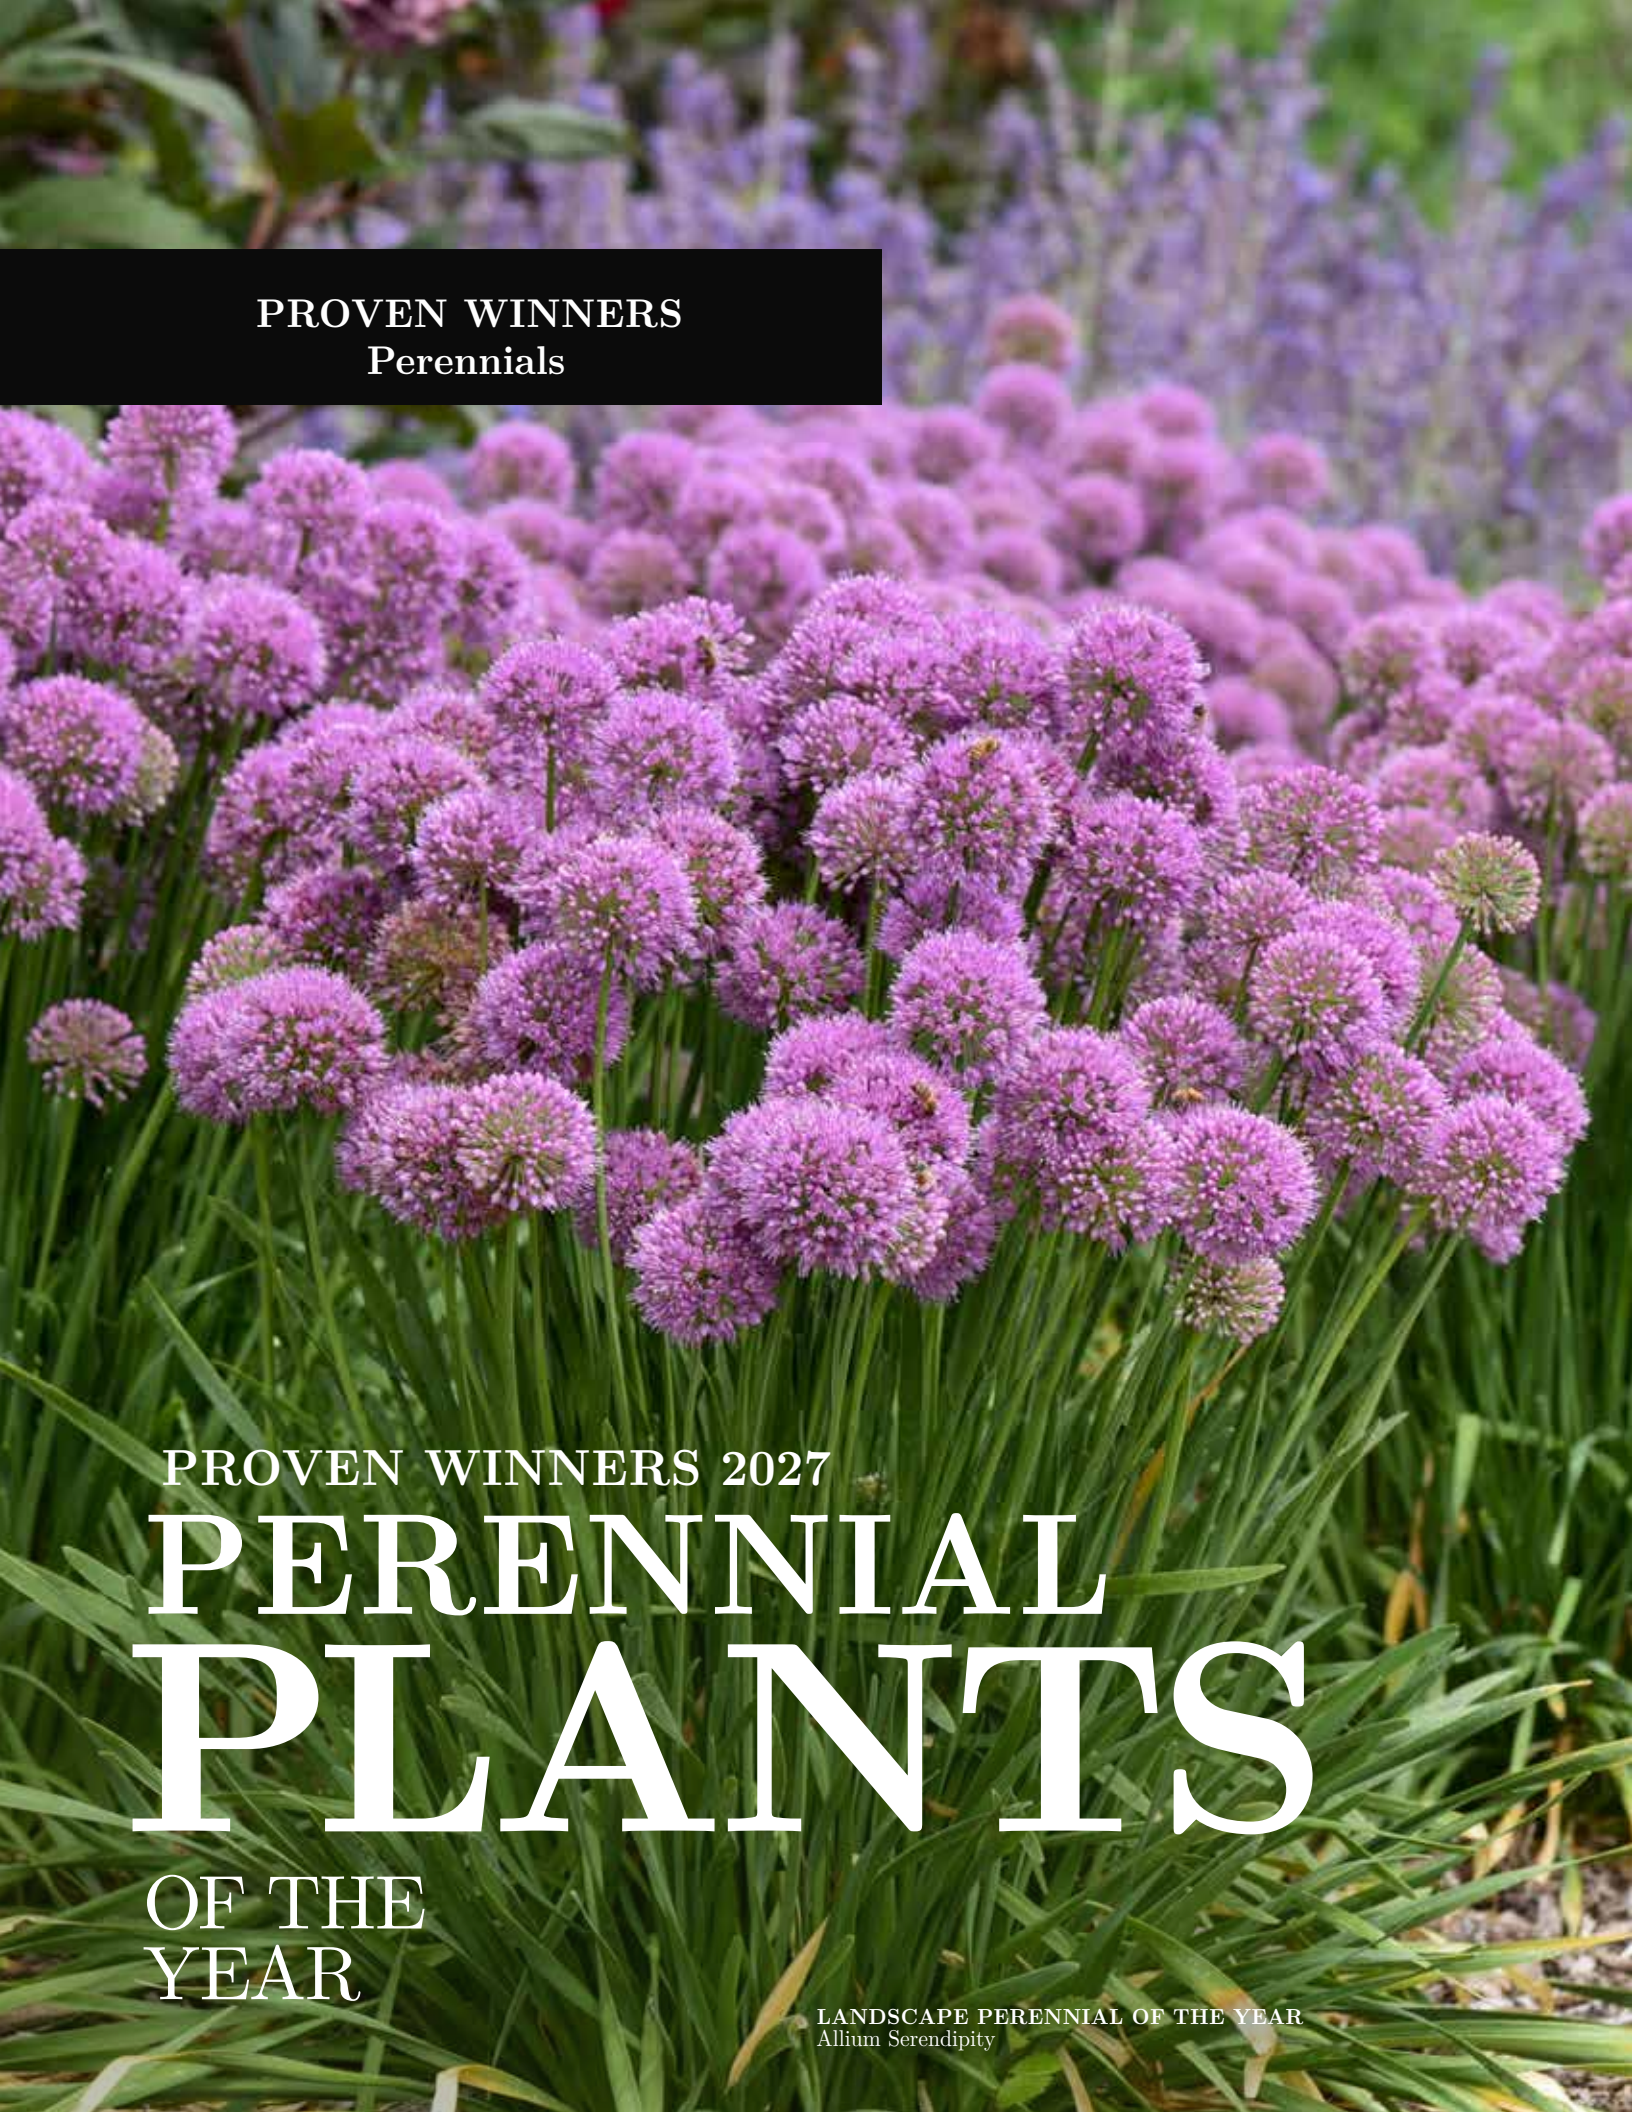

ERYSIMUM SUPER BOWL APRICOT (B)

More compact and earlier to flower than Bowles Mauve, Erysimum Super Bowl™ delivers summer-long flowering due to a reduced seed set, ensuring longer-lasting impact. Vernalization can enhance performance but isn't required, streamlining production and increasing scheduling flexibility. With a stronger, more robust habit than the Erysistible™ series, Super Bowl™ is an excellent choice for larger containers. This upright, medium-vigor series is available in two bold colors and thrives from part sun to full sun in Zones 6a–9b.

AUBRIETA AXCENT™ WHITE (C)

Axcent™ Aubrieta delivers fast-finishing plants with a flower-packed canopy and a naturally tight, mounded habit—perfectly sized for quart and gallon programs. Vernalization is required, while pinching is not; fall planting enables easy overwintering and efficient bulking for early-spring success. With medium vigor, full-sun performance, hardiness in Zones 4a–9a, and eight coordinated colors, Axcent™ offers reliable consistency. Axcent™ White Improved raises the bar with an even tighter habit and enhanced shelf life for clean presentation.

LA DIVA® LAVENDER GARNET ROUGE

La Diva® Lavender Garnet Rouge brings rich, early-season impact with striking burgundy blooms accented by distinctive green-striped bracts. Compact, upright plants feature a well-branched habit and medium vigor, delivering a strong performance from the first year. Ideal for early programs, Garnet Rouge adds refined color and texture to premium containers and landscapes. The La Diva® series thrives in full sun, hardy in Zones 6–9.

PEROVSKIA ALISA

Perovskia Alisa delivers dramatic late-season impact with silvery foliage and vibrant blue flower spikes. This high-density selection features large summer blooms on a medium-compact, upright habit well suited for larger containers. With first-year flowering and exceptional tolerance to heat, humidity, and drought, Alisa provides dependable summer performance across regions. Hardy in Zones 4–9, Perovskia Alisa thrives in full sun.

NEPETA® SERENE WILD ORCHID (A)

Nepeta Serene® delivers vibrant summer color with first-year flowering and a refined, upright habit. Known for exceptional hardiness and drought tolerance, these compact-medium plants bring reliable performance to landscapes in full sun. Serene® Wild Orchid features delicate soft pink blooms that add long-lasting beauty to the collection. Offered in four colors and hardy in Zones 4-9.

COREOPSIS® RADIANT (B-D)

Coreopsis Radiant® Red delivers early, extra-large blooms on a tidy, upright plant that starts strong in cool spring conditions and continues to rebloom as temperatures rise. First-year flowering and medium-vigorous growth ensure bold summer color. This striking new addition features vivid red petals tipped in bright yellow for eye-catching contrast. The Radiant® series is offered in four colors, is hardy in Zones 5-9, and thrives in full sun.

(B) Red (C) Lemon (D) Orange

AGASTACHE HONEYSTICKS™ GOLD (E)

Agastache Honeysticks™ Gold delivers early, long-lasting color on a compact, well-branched plant that maintains strong performance through the heat of summer and into first frost. Hardy to Zone 4 and drought-tolerant once established, this pollinator-favorite series thrives in full sun and hot, humid conditions. The introduction of a vibrant new yellow expands the lineup to four colors delivering long-lasting summer performance with first year flowering.

BLOOMIX®

BlooMix® redefines combination programs by blending first-year flowering perennials with cold-tolerant annuals for long-lasting, unbeatable color and added consumer value in the landscape. Designed for efficient spring and summer production, BlooMix combinations are trialed and tested for performance, with perfectly matched components that can be transplanted together for seamless finishing. New introductions include BlooMix® Blue Emotion, combining Calibrachoa Bloomtastic® Serenity, Leucanthemum Sweet Daisy® Jane, and Salvia Midnight Purple; BlooMix® Pink Emotion, featuring Calibrachoa Bloomtastic® Rose Quartz, Leucanthemum Sweet Daisy® Jane, and Salvia Midnight Rose; BlooMix® Wildlife, pairing Gaillardia SpinTop® Yellow Touch with Leucanthemum Sweet Daisy® Jane and Salvia Caramia for pollinator appeal; and BlooMix® Rosefield, blending Calibrachoa Rainbow® Parisian Pink, Leucanthemum Sweet Daisy® Jane, and Veronica Candela® Pink.

(A) Rosefiled (B) Wildfire (C) Blue Emotion (D) Pink Emotion

DIANTHUS SPRINT® PINK & PROUD

The Dianthus Sprint® series offers compact plants with an upright habit and medium-sized, semi-double blooms in vibrant colors. First-year flowering and compact-medium vigor deliver fast color and strong garden performance. Sprint® Pink & Proud stands out with swirling marbled pinks and crisp white blooms. The Sprint® series is offered in 14 colors, is hardy in Zones 6–9, and performs well in sun to part sun.

GAILLARDIA SPINTOP® MARIACHI GOLD

SpinTop® Mariachi Gaillardia brings vibrant flair to containers and landscapes with distinctive, spoon-tipped blooms and a compact, mounded habit. First-year flowering and medium vigor deliver vibrant, region-tough performance in full sun from spring through summer. SpinTop® Mariachi Gold is a striking new addition, showcasing bright, fluted golden blooms. Offered in four colors and hardy in Zones 4–9.

PENSTEMON SUPER STAR

Penstemon Super Star makes a bold impression with rich, dark carmine blooms accented by a crisp white throat and lush green foliage. Extra-large flowers are carried on strong, upright plants with a vigorous, well-branched habit that maintains strong performance in containers and the landscape. First-year flowering and repeat blooming deliver standout color through summer. Hardy in Zones 6–9, Super Star thrives in full sun.

WALTERS GARDENS Perennials

PENSTEMON

BEJEWELED® LAVENDER SAPPHIRES (A)

BEJEWELED® 'Lavender Sapphires' Penstemon showcases rosy-purple flowers accented with lavender-blue tips, carried on strong stems above a dense, refined habit. This hardy perennial delivers season-long color with excellent heat and cold tolerance. Blooming from late spring into early summer, Lavender Sapphires thrives in full to mostly sun, is hardy in Zones 4–8, and reaches 16–18 inches tall, finishing in 1-gallon and 2.5-quart containers.

PENSTEMON

BEJEWELED® DARK AMETHYST (B)

BEJEWELED® 'Dark Amethyst' Penstemon features rich reddish-purple flowers carried on strong stems, forming a dense, mid-size plant. This hardy perennial delivers season-long color with impressive heat tolerance and cold hardiness. Blooming from late spring into early summer, Dark Amethyst thrives in full to mostly sun, is hardy in Zones 4–8, and reaches 18–22 inches tall, finishing well in 1-gallon and 2.5-quart containers.

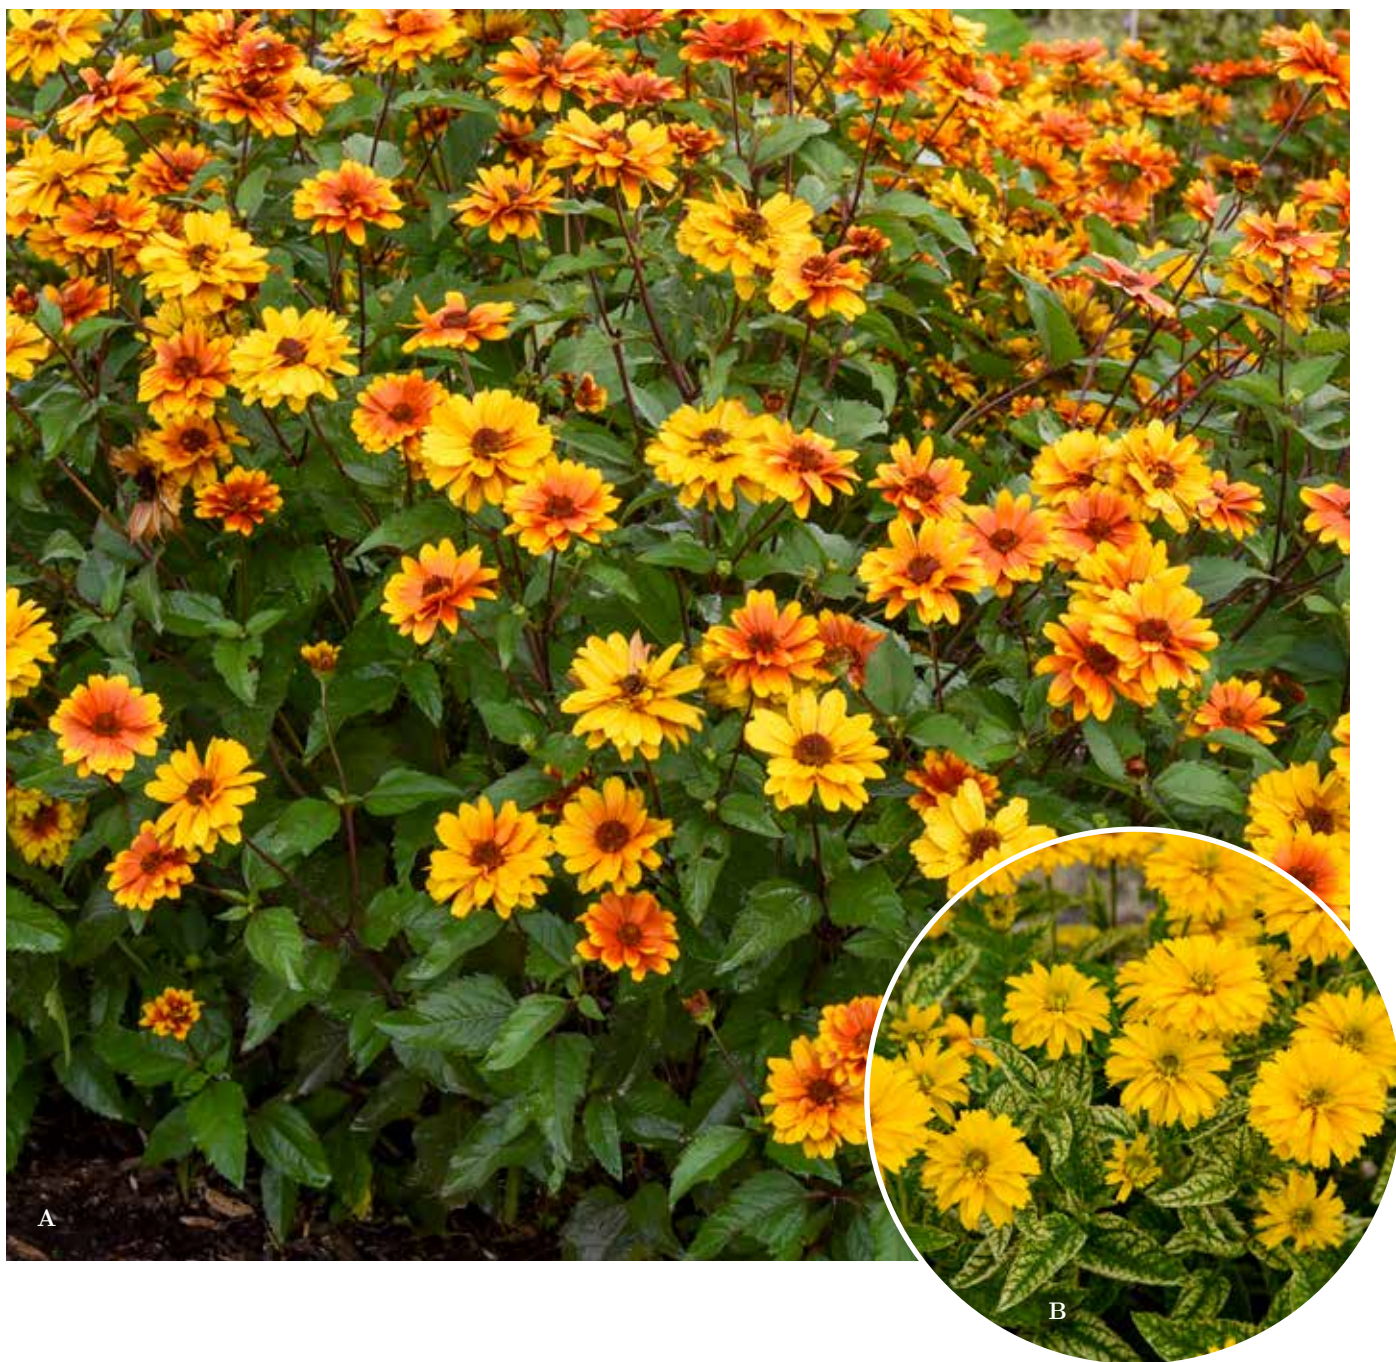

ALLIUM NEEDLEPOINT (A)

Allium 'Needlepoint' delivers crisp white summer blooms on compact, finely textured plants that form tidy clumps. Bred for improved garden performance, this dependable selection is significantly less weedy than traditional varieties, making it easier to grow and maintain. Hardy in Zones 4–8 and thriving in partial to full sun, Needlepoint reaches 14–16 inches tall and is well suited to 1-gallon and 2.5-quart containers.

ALLIUM ALL THE BUZZ® (B)

All the Buzz® Allium delivers early-season impact on a compact plant topped with rosy purple blooms that draw pollinators and resist deer. Blooming in summer, this dependable selection adds vibrant color and structure to borders and garden plantings. Hardy in Zones 4–8 and thriving in partial to full sun, All the Buzz® finishes at 14–18 inches tall and is well suited to 1-gallon and 2.5-quart containers.

HELIOPSIS FORGED IN FIRE (A)

Heliopsis 'Forged in Fire' delivers standout summer color with semi-double blooms featuring dramatic burnt-orange eyes and pollinator-friendly centers. Dark, mildew-resistant foliage and a dense, mid-size habit ensure strong garden performance and lasting visual appeal. Blooming from summer into early fall, this reliable perennial thrives in partial to full sun, is hardy in Zones 3-9, and reaches 32-36 inches tall. Well suited to 1-gallon and 2.5-quart containers.

HELIOPSIS SUNNY DISPOSITION (B)

Heliopsis 'Sunny Disposition' shines with a perfectly rounded habit topped with golden yellow, double to semi-double, ball-shaped blooms. Subtly variegated foliage adds extra texture and visual interest, delivering cheerful color from summer into early fall. Hardy in Zones 3-9 and thriving in partial to full sun, Sunny Disposition reaches 24-28 inches tall and is well suited to 1-gallon and 2.5-quart containers.

LAVANDULA SUMMER SERENADE

Lavandula 'Summer Serenade' delivers early, season-long color with true lavender blooms on a compact plant that finishes as a tidy, rounded ball. Ideal for sunny front-of-border plantings and containers, it offers a long bloom window from summer into fall. Hardy in Zones 5–9 and thriving in full to mostly sun, Summer Serenade reaches 14–16 inches tall and is well suited to 1-gallon and 2.5-quart programs.

SALVIA LIVING LARGE® DARK SKY

LIVING LARGE® 'Dark Sky' Salvia delivers vertical impact with towering scapes of the darkest indigo-blue flowers in the series. Dense foliage, prolific branching, and a later bloom window provide extended flowering and strong seasonal presence. Blooming from late spring into early summer, Dark Sky thrives in full to mostly sun, is hardy in Zones 3–8, and reaches 24–28 inches tall, finishing well in 1-gallon and 2.5-quart containers.

CERASTIUM CLOUD COVER (A)

Cerastium 'Cloud Cover' delivers early, silvery groundcover appeal with a dense, compact habit that carpets gardens and landscapes. Masses of bright white flowers cover the plants in late spring to early summer, while the foliage remains attractive well into fall. Hardy in Zones 3–7, Cloud Cover thrives in full to mostly sun, finishes at 4–6 inches tall, and is well suited to 1-gallon and 2.5-quart containers.

DICENTRA SUN JEWELS™ RUBIES & DIAMONDS (B)

SUN JEWELS™ 'Rubies and Diamonds' Dicentra brings vivid ruby-red blooms from late spring through early fall, accented by refined blue foliage. This sun-tolerant alpine bleeding heart thrives in well-drained soils and in front-of-border plantings with a controlled, compact habit. Hardy in Zones 3–9 and thriving in full to mostly sun, Rubies and Diamonds finishes at 12–14 inches tall and is well suited to 1-gallon and 2.5-quart containers.

DICENTRA PIXIE HEARTS (C)

Dicentra 'Pixie Hearts' delivers soft pink blooms held above compact, blue-green foliage on a sun-loving alpine bleeding heart. This well-behaved perennial performs best in well-drained soils and provides an extended bloom window from late spring into early fall. Hardy in Zones 3–9 and thriving in full to mostly sun, Pixie Hearts reaches 14–20 inches tall and is well suited to 1-gallon and 2.5-quart containers.

ORNAMENTAL GRASSES PRAIRIE WINDS® COLLECTION

MUHLENBERGIA CANDY FLOSS (D)

PRAIRIE WINDS® 'Candy Floss' Muhlenbergia blooms early with deep rose-pink plumes that deliver airy fall color and graceful movement. Uniform plants provide reliable overwintering and consistent performance from summer into late fall. Hardy in Zones 6–10, Candy Floss thrives in full to mostly sun and reaches 36–42 inches tall.

PANICUM BLUE SPEAR (E)

PRAIRIE WINDS® 'Blue Spear' Panicum forms a sturdy, columnar clump of blue-green foliage topped with distinctive, fused, sorghum-like panicles. This upright grass delivers bold late-summer interest and strong winter presence with excellent structural appeal. Hardy in Zones 4–9 and thriving in full to mostly sun, Blue Spear reaches 48–52 inches tall and performs well in 2.5-quart, 1-gallon, and 2-gallon containers.

ANDROPOGON BLUE STEEL (F)

PRAIRIE WINDS® 'Blue Steel' Andropogon features dense, upright steel-blue foliage with subtle purple highlights that intensify through fall. Hardy, low-maintenance plants provide strong structure, seasonal interest, and winter appeal. Hardy in Zones 3–9, Blue Steel thrives in full to mostly sun and reaches approximately 4.5 feet tall.

HIBISCUS SUMMERIFIC® GLITTER BOMB (A)

SUMMERIFIC® ‘Glitter Bomb’ Hibiscus delivers unforgettable garden drama with rare, peppermint-patterned 7-inch blooms highlighted by a bold red eye. Striking flowers rise above dark foliage on a strong, upright plant, creating exceptional back-of-border impact. Hardy in Zones 4–9 and thriving in full to mostly sun, Glitter Bomb reaches 4–4.5 feet tall and blooms from mid-summer into early fall, finishing well in 2- and 3-gallon containers.

HIBISCUS SUMMERIFIC® COCONUT CREAM (B)

SUMMERIFIC® ‘Coconut Cream’ Hibiscus offers creamy-yellow blooms accented by dark foliage on a strong, upright habit. Featuring deeper yellow flowers, improved overwintering, and a more polished form than French Vanilla, this variety delivers dependable performance and visual impact. Hardy in Zones 4–9 and thriving in full to mostly sun, Coconut Cream reaches 4–4.5 feet tall and blooms from mid-summer into early fall, finishing well in 2- and 3-gallon containers.

ECHINACEA DOUBLE DIPPED® STRAWBERRY SLUSHIE (A)

DOUBLE DIPPED® ‘Strawberry Slushie’ Echinacea showcases fully double blooms in rich strawberry-pink tones, beautifully supported by strong stems and dark green foliage. This compact, eye-catching selection delivers bold summer color and outstanding garden presence in sunny borders and mixed plantings. Hardy in Zones 4–8 and thriving in full to mostly sun, Strawberry Slushie finishes at 16–18 inches tall and is well suited to 1-gallon and 2.5-quart containers.

ECHINACEA DOUBLE DIPPED® JUST PEACHY (B)

DOUBLE DIPPED® ‘Just Peachy’ Echinacea delivers show-stopping, fully double blooms that open peach-orange and mature to soft salmon pink. Carried on strong stems above dark green foliage, this standout variety brings bold summer color to sunny borders and mixed plantings. Hardy in Zones 4–8 and thriving in full to mostly sun, Just Peachy reaches 22–26 inches tall and is well suited to 1-gallon and 2.5-quart containers.

KEINTZLER NA Perennials

IBERIS ABSOLUTELY ORCHID

Iberis 'Absolutely Orchid' delivers late-spring color with exceptional flower longevity on a compact, mounded plant. Soft pink blooms hold their impact far longer than standard varieties. Hardy to Zone 5, this selection performs best in full sun and finishes well in 2.5-quart and gallon containers.

AJUGA FEATHERED FRIENDS (A-B)

Ajuga Feathered Friends® delivers an exceptionally high flower count paired with bold, colorful foliage for standout seasonal appeal. Hardy to Zone 4 this low-maintenance, versatile series features a mounded-spreading habit with medium vigor. Offered in four distinct varieties, Feathered Friends® includes selections with blue flowers and gold foliage (Cordial Canary), blue flowers with caramel foliage (Fancy Finch), pink flowers with green foliage (Raspberry Wren), and pink flowers with dark caramel foliage (Rosy Robin). Thriving in full sun to part shade, the series performs well in pint, quart, and 2.5-quart containers.

(A) Fancy French (B) Raspberry Wren

HELIOPSIS SOLE (C-D)

Heliopsis Sole® Series delivers dependable garden color with continual blooms from June through October. First-year fall flowering, an upright-mounded habit, and medium vigor make this hardy perennial an easy choice for both containers and landscapes. Hardy to Zone 4 and thriving in full sun to part shade, the Sole® series is offered in eight colors and finishes nicely in 2.5-quart, gallon, and 8"-12" patio pots. New additions include Sole® Magico, featuring vibrant yellow blooms, and Sole® d'Amore, showcasing warm burnt-orange to red tones for added seasonal depth.
